21 p0088 N79-15839
- A microprocessor monitoring system for a solar energy installation  
21 p0088 N79-15840
- Design of the data acquisition system at Solar One --- home energy monitoring via minicomputers  
21 p0088 N79-15841
- A low cost approach to performance monitoring for the evaluation of a solar domestic hot water system  
21 p0088 N79-15842

Low-cost monitoring of solar system performance  
21 p0088 A79-15843

Solar energy for residential housing  
21 p0090 A79-15857

Design of active solar heating systems  
21 p0090 A79-15860

Solar heating and cooling - An electric utility  
perspective  
21 p0093 A79-15890

Solar-earth homes and cities --- in-ground solar  
heated dwellings  
21 p0098 A79-16105

Solar controls and control modifications - New  
century town solar homes, Vernon Hills, IL.  
21 p0102 A79-16419

Solar heating and ventilating by natural means  
21 p0103 A79-16458

Inexpensive solar energy utilization in human  
settlements  
21 p0104 A79-16470

Impacts of the National Energy Plan on solar  
economics  
[CONF-771203-6]  
21 p0118 A79-17294

Long-term thermal storage in solar architecture in  
northern latitudes, with reference to typical  
single family dwellings  
21 p0119 A79-17313

Investigation of physical and chemical properties  
of phase change materials for space  
heating/cooling applications  
21 p0120 A79-17319

A passive integrated unit for the collection,  
thermal storage in fusion materials and  
distribution of solar energy for home heating  
and other applications  
21 p0121 A79-17322

A thermal storage analysis on packed bed of  
alumina spheres --- in solar houses  
21 p0121 A79-17324

Use of monolithic structures for the short term  
storage of solar energy  
21 p0121 A79-17327

A passive rock bed - Design, construction, and  
performance  
21 p0121 A79-17328

Investigation on the feasibility of using a  
two-phase thermosyphon for solar storage, space  
heating and cooking  
21 p0121 A79-17330

Tilt, orientation and overshadowing of solar  
collectors in the Netherlands  
21 p0131 A79-17414

Comparison between simulation and experiment of  
solar heating  
21 p0137 A79-17461

Design, operation and performance of the BBC Solar  
House  
21 p0137 A79-17462

Analysis and design of solar buildings using the  
Cal-ERDA computer programs  
[CONF-780114-9]  
21 p0137 A79-17463

Solar heating performance of the Toshiba Solar  
House No. 1  
21 p0137 A79-17465

The analysis by stochastic modelling of solar  
systems for space and water heating  
21 p0137 A79-17466

Space heating with solar all-air systems - CSU  
Solar House II  
21 p0137 A79-17467

Conceptual development of a solar town in Iran  
21 p0138 A79-17469

Some experimental investigations on solar space  
heating in Korea  
21 p0138 A79-17470

Design of a low-energy house in Denmark heated by  
a combination of solar and wind energy  
21 p0138 A79-17471

Simulation and design of evacuated tubular solar  
residential air conditioning systems and  
comparison with actual performance  
21 p0138 A79-17475

Solar heated and cooled financial building  
21 p0139 A79-17484

Solar retrofitting of existing residence with  
almost zero delta TE system  
21 p0139 A79-17485

Solar heating for a novel dwelling independent of  
servicing networks  
21 p0140 A79-17492

An earth-wrapped solar greenhouse house ---  
partially buried structure  
21 p0140 A79-17493

Enhancement of intrinsic solar heating --- thermal  
performance of house design option  
21 p0140 A79-17494

Experimental investigation on solar house heating  
in northern India  
21 p0140 A79-17495

Performance evaluation of the New Mexico State  
University Solar House  
[ASME PAPER 78-WA/SOL-8]  
21 p0163 A79-19840

A Thermic Controller for a thermic diode solar panel  
[ASME PAPER 78-WA/SOL-9]  
21 p0163 A79-19841

The application of thermography to large arrays of  
solar energy collectors  
22 p0242 A79-21171

Investigations of solar heat production for  
household heating in Turkey  
22 p0253 A79-22265

Optimum collector slope for residential heating in  
adverse climates  
22 p0263 A79-23761

Solar energy and heat insulation --- materials for  
residential buildings  
22 p0268 A79-24321

Solar storage unit with built-in oil-gas boiler  
22 p0268 A79-24322

What and where - Solar active systems or energy  
conservation in buildings  
22 p0275 A79-25927

Passive solar heating of buildings  
22 p0275 A79-25928

The CCMS solar energy pilot study system  
performance reporting format  
22 p0275 A79-25930

Solar heating, cooling and hot water production -  
A critical look at CCMS installations  
22 p0275 A79-25931

Solar air heating and nocturnal cooling system  
/CSU Solar House II/  
22 p0275 A79-25932

Dornier/RWE solar house in Essen, FRG  
22 p0276 A79-25933

Experience with the MBB-solar testing house at  
Otterfing and relevant consequences on the  
commercial product  
22 p0276 A79-25934

Mississauga solar house /Mississauga, Ontario,  
Canada/  
22 p0276 A79-25935

Thomson Solar House I  
22 p0276 A79-25936

Solar houses in Blagnac /Blagnac, Haute-Garonne,  
France/  
22 p0276 A79-25937

The performance of the heating system in the solar  
house of the Eindhoven University of Technology  
22 p0276 A79-25938

Performance of residential solar heating and  
cooling system with flat-plate and evacuated  
tubular collectors - CSU Solar House I  
22 p0276 A79-25939

CCMS solar energy pilot study reporting format -  
The zero energy house in Denmark  
22 p0277 A79-25940

The Philips experimental house - A system's  
performance study --- of solar energy  
utilization and energy conservation  
22 p0277 A79-25941

Passive solar heating system in Turkey  
22 p0277 A79-25942

Passive solar house in Vetlanda - Interim report  
22 p0277 A79-25943

Solar heating and cooling performance of the Los  
Alamos National Security and Resources Study  
Center  
22 p0277 A79-25944

Santa Clara Community Center Project, USA ---  
solar building  
22 p0277 A79-25945

The Tritherm test house --- solar  
heating experiment  
22 p0290 A79-27723

Passive solar energy design and materials --- Book  
22 p0302 A79-29625

Preliminary design package for residential heating/cooling system: Rankine air conditioner redesign [NASA-CR-150871] 22 p0354 N79-19453

Final system instrumentation design package for Decade 80 solar house [NASA-CR-150869] 22 p0354 N79-19455

EPRI Methodology for Preferred Solar Systems (EMPS) computer program documentation. User's guide [EPRI-ER-771] 23 p0543 N79-22635

System design package for a solar heating and cooling system installed at Akron, Ohio [NASA-CR-161192] 23 p0547 N79-23490

Impact of solar energy on rural housing [GPO-31-641] 23 p0560 N79-24467

Solar project cost report: Terrell E. Moseley Office Building, Lynchburg, Virginia [SOLAR/2011-78/60] 23 p0562 N79-24483

Solar project description. Terrell E. Moseley Office Building, Lynchburg, Virginia [SOLAR/2011-78/50] 23 p0563 N79-24498

Solar project description. Kalwall Corporation Warehouse, Manchester, New Hampshire [SOLAR/2015-78/50] 23 p0564 N79-24499

Solar heating, cooling, and hot water systems installed at Richland, Washington [NASA-CR-161237] 24 p0722 N79-28721

Performance and cost of a hybrid passive/active solar house [LA-OR-78-2209] 24 p0725 N79-28756

Solar project cost report [SOLAR/2018-78/60] 24 p0728 N79-28788

Role of government in solar energy development: A view from the northwest --- economic feasibility of solar heating [PNL-2784] 24 p0738 N79-29621

Phase-one experiment test plan solar photovoltaic/thermal residential experiment [COO-4577-6] 24 p0739 N79-29625

Cost effective solar hot water system for Econo-Travel Motor Hotel located at Woodbridge, Virginia [COO-4661-1] 24 p0739 N79-29635

Cost and performance evaluation of passive solar systems [ANL/EES-TM-34] 24 p0753 N79-30774

Comparative economics of passive and active systems [LA-OR-78-1878] 24 p0754 N79-30782

**SOLAR INSTRUMENTS**

Calibration standards and field instruments for the precision measurement of insolation 21 p0076 A79-14765

Sensor selection and placement in the National Solar Data Program 21 p0089 A79-15884

Testing of solar collectors according to ASHRAE Standard 93-77 21 p0101 A79-16417

Design of radiometer for measurement of total and net exchange solar radiation 21 p0119 A79-17307

**SOLAR PONDS (HEAT STORAGE)**

Solar pond stability experiments 21 p0042 A79-11878

Some studies on an experimental solar pond 21 p0131 A79-17416

Yield of ground storage of heat in solar ponds 21 p0133 A79-17429

Viscosity stabilized solar ponds 21 p0133 A79-17430

Conditions for absolute stability of salt gradient solar ponds 21 p0133 A79-17431

Computer simulation of the performance of a solar pond in the southern part of Iran 21 p0133 A79-17432

Design construction and short term performance of a solar pond 23 p0385 A79-33220

Heat extraction from a salt gradient solar pond 23 p0410 A79-34085

The steady state salt gradient solar pond 24 p0661 A79-50540

Solar pond concepts - Old and new 24 p0671 A79-51734

Performance of a large, salt-gradient solar pond 24 p0671 A79-51735

Stability criteria for saturated solar ponds 24 p0671 A79-51736

Economic and performance comparisons of salty and saltless solar ponds 24 p0671 A79-51737

Sede Boger - Shallow solar ponds project 24 p0671 A79-51738

Solar thermoelectric energy conversion 24 p0699 A79-51976

Solar ponds. Citations from the NTIS data base [NTIS/PS-78/0836/3] 21 p0176 N79-10553

Solar ponds. Citations from the engineering index data base [NTIS/PS-78/0837/1] 21 p0176 N79-10554

Design guide for shallow solar ponds [UCRI-52385] 21 p0185 N79-11497

Final system instrumentation design package for Decade 80 solar house [NASA-CR-150869] 22 p0354 N79-19455

Design guide for shallow solar ponds [UCRL-52385-RPV-1] 24 p0727 N79-28774

Evaluation of a large nonconvective solar pond [RLN-2606(OP)] 24 p0786 N79-32680

**SOLAR POSITION**

Sun-position diagrams using examples from Flensburg to Mittenwald 21 p0055 A79-13626

Long-term average performance of the Sunpak evacuated-tube collector 21 p0089 A79-15854

Solar energy diagrams --- combining position and insolation data 22 p0253 A79-22267

**SOLAR POWER SATELLITES**

New energy conversion techniques in space, applicable to propulsion --- powering of aircraft with laser energy from SPS [AIAA PAPER 79-1338] 23 p0493 A79-40490

Energy analysis of the Solar Power Satellite 24 p0601 A79-44160

The solar power satellite concept 24 p0603 A79-44277

Energy for the year 2000 - The SPS concept 24 p0645 A79-48026

Solar thermal aerostat research station /STARS/ [IAP PAPER 79-35] 24 p0709 A79-53261

Cost comparisons for the use of nonterrestrial materials in space manufacturing of large structures [IAP PAPER 79-115] 24 p0709 A79-53302

Solar power satellites for Europe [IAP PAPER 79-173] 24 p0710 A79-53334

European technology applicable to Solar Power Satellite Systems /SPS/ [IAP PAPER 79-174] 24 p0710 A79-53335

A space power station without movable parts [IAP PAPER 79-177] 24 p0710 A79-53337

Legal aspects of solar power satellites - Focus on microwave exposure standards [IAP PAPER 79-IISL-01] 24 p0711 A79-53452

Solar energy bank for mankind in contemporary international space law [IAP PAPER 79-IISL-47] 24 p0711 A79-53482

## SUBJECT INDEX

## SOLAR REFLECTORS

- A power transmission concept for a European SPS system 24 p0712 A79-53487
- Legal norm creation concerning solar energy in contemporary international space law 24 p0713 A79-53680
- The legal aspect concerning solar energy 24 p0713 A79-53681
- Some observations of the legal implications relating to the use of solar energy 24 p0713 A79-53682
- Environmental factors of power satellites [SAMSO-TR-79-66] 24 p0717 A79-28213
- Solar power satellite [GPO-45-997] 24 p0731 A79-29212
- Satellite Power System (SPS) resource requirements (critical materials, energy, and land) [NASA-CR-162310] 24 p0763 A79-31251
- SOLAR PROBES**
- Design optimization of FTG for Solar-Polar Mission --- Radioisotope Thermoelectric Generator 24 p0653 A79-51935
- SOLAR PROPULSION**
- A high temperature Rankine binary cycle for ground and space solar engine applications 21 p0108 A79-16613
- Design investigation of solar powered lasers for space applications [NASA-CR-159554] 23 p0578 A79-26384
- SOLAR RADIATION**
- A theoretical method for the prediction of monthly mean solar radiation parameters 21 p0022 A79-10193
- Results of measurements of solar radiation on surfaces of different orientations 21 p0055 A79-13622
- Measurement of radiation intensity by means of a pyrheliometer 21 p0055 A79-13623
- Irradiances on inclined surfaces --- from solar and sky radiation and earth albedo 21 p0055 A79-13624
- The use of a sort of slide rule for the quick determination of solar irradiation of surfaces and through double glazing of arbitrary orientation and different inclination 21 p0055 A79-13625
- Estimating hourly solar radiation for one-axis tracking focusing collectors 21 p0071 A79-14678
- A probabilistic model of insolation for the Mojave desert-area 21 p0076 A79-14766
- Measurement of solar radiation for energy conversion 21 p0119 A79-17305
- Design of radiometer for measurement of total and net exchange solar radiation 21 p0119 A79-17307
- Fundamentals of mathematical modeling of solar-radiation regime energy structure 21 p0166 A79-20352
- Differential insolation and turbidity measurements --- solar radiation attenuation by aerosols 22 p0241 A79-21056
- Diffuse solar radiation on a horizontal surface for a clear sky 22 p0242 A79-21167
- Solar radiation charts --- monthly average insolation 22 p0263 A79-23763
- Selected ordinates for total solar radiant property evaluation from spectral data 22 p0271 A79-25060
- On the use of synoptic weather map typing to define solar radiation regimes 22 p0272 A79-25392
- Radiation regime of inclined surfaces --- Russian book on solar energy engineering and microclimatology 22 p0282 A79-26353
- Statistical analysis of solar radiation data in Montreal for solar energy utilization 22 p0322 A79-31452
- Hawaii solar radiation summary 23 p0398 A79-33985
- Solar radiation data modeling and its role in solar system studies --- for energy conversion systems performance prediction 23 p0429 A79-35056
- Functional solar energy applications based on an improved insulation model 23 p0452 A79-37883
- Important specification of pyranometers for solar energy applications /Survey article/ 23 p0468 A79-38627
- Fast spectral radiometer --- for solar radiation spectral composition 23 p0469 A79-38629
- The engineering analysis of solar radiation 24 p0605 A79-44796
- Solar radiation data in the southeastern United States 24 p0608 A79-45204
- Solar irradiance measurements by means of optical fibers and silicon detectors 24 p0638 A79-47198
- The impracticability of large-scale generation of hydrogen from water photolysis by utilization of solar radiation 24 p0649 A79-49231
- The availability of solar energy for work processes 24 p0658 A79-50346
- Statistical correlation between daily and monthly averages of solar-radiation data 24 p0668 A79-51022
- Radiation regime of inclined surfaces [WMO-467] 21 p0192 A79-11613
- Characterization of solar cells for space applications. Volume 4: Electrical characteristics of Spectrolab BSF 200-micron Helios cells as a function of intensity and temperature [NASA-CR-157934] 21 p0195 A79-12543
- Global radiation on randomly oriented and inclined surfaces in Austria [ASSA-SE-INPO-7/78] 23 p0574 A79-25528
- Radiation shadow indicator [NASA-CASE-MFS-23546-2] 24 p0730 A79-29037
- Determination of potential solar power sites in the United States based upon satellite cloud observations [NASA-CR-159944] 24 p0749 A79-30712
- New York State solar energy atlas [PB-295453/5] 24 p0802 A79-33599
- SOLAR RADIATION SHIELDING**
- Selective covers for natural cooling devices --- in space 22 p0272 A79-25522
- SOLAR REFLECTORS**
- Enhanced solar energy options using earth-orbiting mirrors 21 p0019 A79-10162
- Specular mirrors for solar energy application 21 p0034 A79-11147
- Solar thermal power systems point-focusing distributed receiver /PPDR/ technology - A project description [AIAA PAPER 78-1771] 21 p0062 A79-13869
- Orbiting mirrors for terrestrial energy supply 21 p0108 A79-16605
- Solar thermal collectors using planar reflector 21 p0131 A79-17412
- Performance of optimal geometry three step compound wedge stationary concentrator --- solar collector using flat side mirrors 21 p0134 A79-17438
- Comparative performance of tracking type and non-tracking type solar collectors 21 p0136 A79-17454
- A reflector concentrator modified sterling engine unit and an aqua-ammonia absorber gas turbine unit for farm power needs 21 p0142 A79-17509
- Optimal geometries for one- and two-faced symmetric side-wall booster mirrors --- for solar collectors 21 p0149 A79-18019
- A cavity receiver design for solar heated gas turbine generating systems [ONERA, TP NO. 1978-137] 21 p0155 A79-18560
- The thermomechanical behavior of polyvinyl butyral film and its effect on focal stability of a solar mirror-laminate 22 p0239 A79-20824
- Space reflector technology and its system implications [AIAA PAPER 79-0545] 22 p0273 A79-25852

- Linear echelon refractor/reflector solar concentrators 22 p0293 A79-28143
- A parabolic solar reflector for accurate and economic producibility 22 p0293 A79-28145
- Analysis of a Cassegrain solar furnace 22 p0293 A79-28147
- Specularity measurements for solar materials 22 p0294 A79-28153
- Optical analysis of solar facility heliostats 22 p0296 A79-28360
- Solar-tower power plants - Optimization of the mirror field and application to the field scale effect 23 p0382 A79-32951
- Contribution to the study of optimal conditions for optical concentration in solar power plant designs - Reduction of the radiation spot provided by a field of heliostats by use of optimized conical mirrors 23 p0382 A79-32952
- Comparative efficiencies of solar energy collectors 23 p0382 A79-32955
- SOLARES - A new hope for solar energy 23 p0399 A79-33992
- Photovoltaic power generation by use of compound parabolic concentrators 23 p0402 A79-34024
- Heliostat reflectivity variations due to dust buildup under desert conditions 23 p0430 A79-35067
- Exposure test results for reflective materials --- used in solar concentrators 23 p0430 A79-35068
- Specularity measurements by Fourier transform examination --- for scattering properties of solar mirrors 23 p0431 A79-35069
- Optical properties of materials under simulated operating environments --- selective coatings for solar thermal conversion 23 p0431 A79-35071
- A reflecting radiation trap for producing higher temperatures in flat-plate solar collectors 23 p0530 A79-42895
- Primary reflector for solar energy collection systems [NASA-CASE-NPO-13579-4] 21 p0217 A79-14529
- The parabolic concentrating collector: A tutorial [NASA-CR-158426] 22 p0355 A79-20491
- Introductory assessment of orbiting reflections for terrestrial power generation [NASA-TM-73230] 23 p0541 A79-22615
- Systems definition space-based power conversion systems --- for satellite power transmission to earth [NASA-CR-150268] 23 p0546 A79-23483
- Primary reflector for solar energy collection systems and method of making same [NASA-CASE-NPO-13579-3] 23 p0557 A79-24432
- Solar energy collection system [NASA-CASE-NPO-13579-2] 23 p0557 A79-24433
- Central receiver design considerations for Brayton cycle solar power plants [AED-CONF-78-212-016] 24 p0777 A79-31832
- Conceptual design study of concentrator enhanced solar arrays for space applications Volume 1: Study overview and summary [NASA-CR-162328] 24 p0782 A79-32638
- Conceptual design study of concentrator enhanced solar arrays for space applications Volume 2: Technical [HAC-REF-E3256-VCI-2] 24 p0782 A79-32639
- SOLAR SAILS**
- Advanced composites - Future space applications 21 p0086 A79-15504
- Superlight rotating reflectors in space [IAF PAPER 79-112] 24 p0709 A79-53301
- Earth orbital assessment of solar electric and solar sail propulsion systems [NASA-CR-158167] 22 p0345 A79-17898
- SOLAR SENSORS**
- Effects of pointing errors on receiver performance for parabolic dish solar concentrators 21 p0C20 A79-10167
- Computer based sun following system 22 p0242 A79-21165
- Suntrack-systems for solar concentrators 23 p0464 A79-38587
- Solar tracking control system Sun Chaser [NASA-TM-78199] 21 p0172 A79-10514
- Solar tracking system --- with pointing control circuits [NASA-CASE-MPS-23999-1] 24 p0721 A79-28667
- Microprocessor-controlled autonomous sun-following mount for solar photovoltaic energy planning [COO-4094-34] 24 p0789 A79-32702
- SOLAR SIMULATION**
- Measurement and modelling of shortwave radiation on inclined surfaces 22 p0242 A79-21062
- Modeling, simulation, testing, and measurements for solar energy systems; Proceedings of the Winter Annual Meeting, San Francisco, Calif., December 10-15, 1978 22 p0266 A79-24309
- Solar system modeling using a modular approach with generalized programs for working fluid properties 22 p0266 A79-24310
- A computer simulation model for determining preferred solar heating and cooling systems 22 p0267 A79-24313
- Thermal vacuum testing of solarpanels by solar simulation and infrared simulation 24 p0658 A79-50345
- SOLAR SIMULATORS**
- Solar radiation simulation by means of solar simulator for the indoor testing of solar collectors 21 p0055 A79-13620
- Proposal for efficient appreciation of solar thermal absorptive materials by high irradiance solar simulator 21 p0130 A79-17406
- The development and construction of a simulator for the proof testing of solar power devices 23 p0448 A79-37846
- Optical simulation for a fixed spherical solar collector 24 p0668 A79-51177
- Small-scale solar simulator for indoor testing of collector modules and materials [LA-UR-79-1335] 24 p0790 A79-32716
- Indoor test for thermal performance of the Sunmaster evacuated tube (liquid) solar collector [NASA-CR-161306] 24 p0797 A79-33561
- SOLAR SPECTRA**
- A combined irradiance-transmittance solar spectrum and its application to photovoltaic efficiency calculations 23 p0382 A79-32723
- Spectrally split tandem cell converter studies 23 p0513 A79-41028
- Luminescent solar concentrators. I - Theory of operation and techniques for performance evaluation 24 p0669 A79-51178
- SOLAR TERRESTRIAL INTERACTIONS**
- Potential prediction needs in support of energy systems --- solar-terrestrial interactions [LA-UR-79-673] 24 p0788 A79-32698
- SOLAR THERMAL ENERGY SYSTEMS**
- Turbine sizing of a solar thermal power plant 24 p0673 A79-51751
- Solar central receiver program 24 p0674 A79-51756

External single pass to superheat receiver --- for central receiver solar power plant [AIAA PAPER 78-1751] 21 p0089 A79-15849

SPS microwave subsystem potential impacts and benefits --- environmental and societal effects of Solar Power System construction and operation 21 p0107 A79-16603

Use of monolithic structures for the short term storage of solar energy 21 p0121 A79-17327

An earth-wrapped solar greenhouse house --- partially buried structure 21 p0140 A79-17493

Exploitation of solar energy via modular power plants and multiple utilization of waste heat 21 p0141 A79-17497

Development of 1 kW vertical axis wind generator 21 p0142 A79-17511

Structural design of a superheater for a central solar receiver [ASME PAPER 78-WA/PVP-1] 21 p0162 A79-19832

A superconducting dipole magnet for the UTSI MHD Facility 22 p0235 A79-20533

Practical aspects of designing and manufacturing MHD superconducting base-load magnets in 1988 time frame 22 p0235 A79-20535

The role of the Large Coil Program in the development of superconducting magnets for fusion reactors 22 p0236 A79-20541

Wind turbine generator application places unique demands on tower design and materials 22 p0240 A79-20826

Fatigue impact on Mod-1 wind turbine design 22 p0240 A79-20827

An operating 200 kW horizontal axis wind turbine 22 p0240 A79-20829

A composite-rim flywheel design 22 p0240 A79-20840

A status of the 'Alpha-ply' composite flywheel concept development 22 p0241 A79-20843

Calculation and design of liquid-metal MHD induction machines --- Russian book 22 p0286 A79-27302

Structural cost optimization of photovoltaic central power station modules and support structure [ASME PAPER 79-SOL-17] 22 p0309 A79-30551

Design analysis of a vertical axis wind turbine 23 p0472 A79-38656

Limit analysis and design of a semi-submerged concrete hull for an ocean thermal differences power plant 23 p0486 A79-40195

Fixed angle and seasonably adjustable structural support concepts for solar converters 23 p0518 A79-41063

Structural optimization of SMC line focusing collectors 23 p0534 A79-43295

Solar 'Plus' - Huntsville, Alabama 24 p0608 A79-45209

The MCD-2 wind turbine 24 p0635 A79-46542

Solar power satellite - Putting it together --- fabrication, composite materials, and building site considerations 24 p0659 A79-50399

Weight minimization of sandwich type solar collector panels 24 p0670 A79-51727

A low cost composite blade for a 300 foot diameter wind turbine 24 p0677 A79-51781

High-energy-density flywheel --- rotor design and fabrication 24 p0678 A79-51784

Design of flywheel rotors utilizing cellulosic materials 24 p0678 A79-51787

Design guide for shallow solar ponds [UCRL-52385] 21 p0185 N79-11497

## SUBJECT INDEX

## SUBSIDENCE

- Optical design of a solar collector for the advanced solar thermal electric conversion/process heat program [F/SUB-77/14261] 21 p0209 N79-13528
- Design data brochure for the Owens-Illinois Sunpak (TM) air-cooled solar collector [NASA-CR-15C868] 21 p0229 N79-15404
- Manned remote work station development article [NASA-CR-151871] 22 p0330 N79-16057
- Parametric study of the performance of a CDIF 1-B coal-fired MHD generator [ANL-MHD-79-3] 22 p0361 N79-20503
- Multistack nickel-hydrogen units 22 p0371 N79-21610
- Horizontally mounted solar collector [NASA-CASE-MFS-23349-1] 23 p0546 N79-23481
- Design, fabrication and test of a hydrogen heat pipe --- extruding and grooving 6063-T6 aluminum tubes for cryogenic heat pipes [NASA-CR-152267] 23 p0556 N79-24298
- Solar project description. Terrell E. Moseley Office Building, Lynchburg, Virginia [SOLAR/2011-78/50] 23 p0563 N79-24498
- General-purpose aluminum-air/flywheel electric vehicles [UCRL-82003] 23 p0564 N79-24503
- Design of a 150 kWe distributed collector solar thermal power station [AED-CONF-78-212-013] 23 p0583 N79-26517
- Design, fabrication, and initial test of a fixture for reducing the natural frequency of the Mod-0 wind turbine tower [NASA-TM-79200] 24 p0723 N79-28727
- Design and installation manual for thermal energy storage [ANL-79-15] 24 p0740 N79-29636

- Wind power, volume 2. Citations from the MHS data base --- bibliographies [NTIS/PS-79/0534/2] 24 p0777 N79-31836
- STRUCTURAL FAILURE**
- Mechanical and vibrational problems of a vertical axis wind turbine 23 p0389 A79-33265
- Summary report on the collapse of the Magdalen Islands wind turbine 24 p0635 A79-46544
- STRUCTURAL PROPERTIES (GEOLOGY)**
- Strategic petroleum reserve: Expansion of reserve. Final supplement to final environmental impact statement [DOE/EIS-0034] 24 p0746 N79-30407
- STRUCTURAL RELIABILITY**
- Designing reliability into high-effectiveness industrial gas turbine regenerators [ASME PAPER 79-GT-199] 23 p0380 A79-32456
- STRUCTURAL STABILITY**
- Helio-stat survivability and structural stability for wind loading 23 p0400 A79-34001
- Investigations on the aeroelastic stability of large wind turbines 23 p0483 A79-40116
- Aeroelastic stability and response of horizontal axis wind turbine blades 23 p0483 A79-40117
- The aeroelastic behaviour of large Darrieus-type wind energy converters derived from the behaviour of a 5,5 m rotor 23 p0483 A79-40118
- Measurements of performance and structural response of the Danish 200kW Gedser windmill 23 p0484 A79-40121
- Oscillations of and drift force acting on an OTEC-CWP structure --- Cold Water Pipe 24 p0622 A79-45824
- STRUCTURAL STRAIN**
- Mechanical deflection analysis of diamond turned reflective optics --- for laser fusion 21 p0083 A79-15143
- STRUCTURAL VIBRATION**
- On the dynamics of electrostatically precipitated fly ash [ASME PAPER 78-WA/FU-3] 21 p0160 A79-19787
- On vibration of a thick flexible ring rotating at high speed --- for flywheel energy storage 22 p0235 A79-20511
- Oscillations of and drift force acting on an OTEC-CWP structure --- Cold Water Pipe 24 p0622 A79-45824
- Vortex excited oscillations of marine structures with application to the OTEC cold water pipe 24 p0622 A79-45825
- STRUCTURAL WEIGHT**
- Ultralightweight structures for space power --- solar energy collection for transmission to earth 21 p0108 A79-16609
- SUBMERGED BODIES**
- Wave-tank experiments on an immersed parallel-plate duct --- for testing performance of sub-sea wave energy converter 22 p0258 A79-23306
- Two-dimensional analyses related to wave-energy extraction by submerged resonant ducts 22 p0312 A79-31099
- Heat transfer between a fluidized bed and an immersed vertical U-tube --- in pilot plants 24 p0632 A79-46320
- SUBROUTINE LIBRARIES (COMPUTERS)**
- An expanded system simulation model for solar energy storage (technical report), volume 1 [NASA-CR-159601] 24 p0804 N79-33881
- SUBSIDENCE**
- Remote sensing and mine subsidence in Pennsylvania 22 p0303 A79-29936

## SUBSONIC FLOW

- Numerical simulation of the compaction-subsidence phenomena in a reservoir for two-phase nonisothermal flow 23 p0540 N79-22401
- Bibliography of subsidence and related topics for in situ coal gasification [LETC/BL-71316-1] 24 p0733 N79-29373
- SUBSONIC FLOW**
- Subsonic flow in the channel of an MHD-generator 21 p0167 A79-20413
- Subsonic diffusers for MHD generators 22 p0279 A79-26185
- On supersonic and subsonic diffusers for magnetohydrodynamic generator applications 22 p0279 A79-26186
- SUBSONIC SPEED**
- Study of the application of hydrogen fuel to long-range subsonic transport aircraft. Volume 1: Summary [NASA-CR-132558] 24 p0794 N79-33207
- SUBSTITUTES**
- Some measures of regional-industrial interfuel substitution potentials [BNL-24368] 21 p0208 N79-13525
- SUBSTRATES**
- Measurement of bandgap narrowing and diffusion length in heavily doped silicon 23 p0497 A79-40889
- Epitaxial solar cells on low-cost silicon substrates 23 p0519 A79-41068
- The establishment of a production-ready manufacturing process utilizing thin silicon substrates for solar cells [NASA-CR-158566] 23 p0550 N79-23523
- SUCTION**
- Wind tunnel tests on a wind operated suction-pump-turbine system to generate electricity 23 p0387 A79-33241
- SUGAR CANE**
- Efficiency of sugar cane and cowpea as solar energy converters 21 p0125 A79-17368
- Small mills for producing alcohol from sugar cane 23 p0386 A79-33229
- Properties and operating experience with bagasse as a boiler fuel --- raw sugarcane processing waste 23 p0489 A79-40395
- SUGARS**
- Sweet sorghum - A renewable source for alcohol production 23 p0389 A79-33263
- SULFATES**
- The oxidation of sulfur dioxide to sulfate aerosols in the plume of a coal-fired power plant 21 p0076 A79-14757
- The measurement of the sulfuric acid and sulfate content of particulate matter resulting from the combustion of coal and oil 21 p0156 A79-19219
- Liquid fuels from carbonates by a microbial system 23 p0494 A79-40742
- The conversion of SO<sub>2</sub> to sulfate particles in coal fired power plant plumes 23 p0535 A79-43391
- SULFIDES**
- Electrochemistry of lithium/metal sulfide and calcium/metal sulfide cells using molten salt electrolytes 21 p0040 A79-11832
- SULFUR**
- The Westinghouse Sulfur Cycle Hydrogen Production Process 24 p0614 A79-45591
- Development of a sulfur-iodine thermochemical water-splitting cycle for hydrogen production 24 p0685 A79-51840
- High sulfur fuel effects in a two-cycle high speed army diesel engine [AD-A059534] 21 p0216 N79-14232
- Behavior of nonmetallic materials in shale oil derived jet fuels and in high aromatic and high sulfur petroleum fuels --- compatibility of aircraft materials to fuels [AD-A060322] 21 p0226 N79-15203

## SUBJECT INDEX

- Low-sulfur western coal use in existing small and intermediate size boilers --- particulate sampling and combustion efficiency [PB-287937/7] 22 p0346 N79-18061
- The gas turbine/steam turbine cycle with coal gasification 24 p0723 N79-28737
- SULFUR COMPOUNDS**
- Engineering and bench-scale studies of the sulfur-iodine cycle at General Atomic 21 p0015 A79-10127
- /SN/x-GaAs polymer-semiconductor solar cells 21 p0154 A79-18504
- The preparation of some novel electrolytes: Synthesis of partially fluorinated alkane sulfonic acids as potential fuel cell electrolytes [AD-A056278] 21 p0184 N79-11483
- SULFUR DIOXIDES**
- Factors limiting limestone utilization efficiency in fluidized-bed combustors --- in determining sulfur dioxide emission level 21 p0008 A79-10069
- Recent operating experience of the Wellman-Lord FGD process on a coal-fired boiler --- flue gas desulfurization 21 p0065 A79-14120
- Limestone SO<sub>2</sub> reactivity and causes for reactivity loss during multi cycle utilization 21 p0065 A79-14121
- The Research-Cottrell/Bahco SO<sub>2</sub> and particulate removal system at Rickenbacker Air Force Base 21 p0065 A79-14122
- The direct reduction of sulfur dioxide 21 p0065 A79-14124
- Simultaneous nitrogen oxides and sulfur dioxide removal by absorption-reduction scrubbing 21 p0066 A79-14125
- The oxidation of sulfur dioxide to sulfate aerosols in the plume of a coal-fired power plant 21 p0076 A79-14757
- The impact of a coal fired power plant on ambient sulfur dioxide levels 21 p0082 A79-15032
- Particulate and sulfur oxide control options for conventional coal combustion 21 p0092 A79-15883
- Commercialization of fluidized-bed combustion systems by the State of Ohio 21 p0096 A79-15923
- Emission control for SO<sub>2</sub> - An update [ASME PAPER 78-JPGC-PWR-11] 21 p0150 A79-18097
- Oxidation of SO<sub>2</sub> on the surface of fly ash particles under low relative humidity conditions 22 p0277 A79-26038
- Impact of coal fired power plant emissions on the air quality in Huntington Canyon, Utah 23 p0534 A79-43371
- The conversion of SO<sub>2</sub> to sulfate particles in coal fired power plant plumes 23 p0535 A79-43391
- Application of long-range transport modeling to assess coal development --- for impact on air quality 23 p0535 A79-43429
- Evolution of particles in the plumes of coal-fired power plants. I - Deductions from field measurements 24 p0611 A79-45531
- A study of long range air pollution problems related to coal development in the Northern Great Plains 24 p0612 A79-45538
- The extent of catalytic SO<sub>2</sub> reactions in smoke plumes 24 p0616 A79-45748
- Applicability of energy model techniques to an analysis of impacts of SO<sub>2</sub> emissions from the U.S. electric utilities and control policies 24 p0659 A79-50362
- Demonstration of Wellman-Lord/Allied Chemical FGD technology: Acceptance test results [PB-290514/9] 23 p0566 N79-24534
- Control of sulfur dioxide and particulate emission in MHD power systems using high sulfur coal [CONF-781109-18] 23 p0585 N79-26546
- A method of computing maximum ground-level concentrations of SO<sub>2</sub> under prolonged stagnation conditions 23 p0590 N79-27546

# SUBJECT INDEX

# SUPERCONDUCTING MAGNETS

- Fluidized combustion of coal --- to limit SO<sub>2</sub> and NO<sub>x</sub> emissions 23 p0593 N79-27613
- Modeling of stationary air pollution sources in the central and western Kern County oil fields. Task report. Volume 1: Text [PB-294812/3] 24 p0803 N79-33639
- SULFUR OXIDES**
- Particulate and sulfur dioxide emission control costs for large coal-fired boilers [PB-281271/7] 21 p0178 N79-10591
- Evaluation of the flash desulfurization process for coal cleaning [PB-292328/2] 23 p0590 N79-27342
- Modeling of stationary air pollution sources in the central and western Kern County oil fields. Task Report. Volume 2: Appendices [PB-294813/1] 24 p0761 N79-30856
- SULFURIC ACID**
- The measurement of the sulfuric acid and sulfate content of particulate matter resulting from the combustion of coal and oil 21 p0156 A79-19219
- Real-time, continuous measurement of automotive sulfuric acid emissions 21 p0156 A79-19359
- Sulfuric acid-water - Chemical heat pump/energy storage system demonstration 22 p0281 A79-26209
- Water splitting - The chemistry of the I<sub>2</sub>-SO<sub>2</sub>-H<sub>2</sub>O reaction and the processing of H<sub>2</sub>SO<sub>4</sub> and HI products 23 p0413 A79-34109
- Material and energy balances in the production of ethanol from wood 23 p0495 A79-40745
- Development and testing of the sulfuric acid-water chemical heat pump/chemical energy storage system 24 p0681 A79-51806
- Laboratory model and electrolyzer development for the sulfur cycle hydrogen production process 24 p0685 A79-51843

Superconducting magnets - Present status and problems 22 p0311 A79-31009

Design and development of the US-TESE toroidal coil 22 p0311 A79-31014

Conceptual design study of a doublet fusion ignition test reactor 23 p0407 A79-34065

Large superconducting magnets for new energy technologies 24 p0604 A79-44527

High-current Al-TiNb composite conductor for large energy storage magnets 24 p0604 A79-44546

Superconductive magnetic energy storage --- using superfluid helium for large scale cooling 24 p0631 A79-46309

A parameter sensitivity analysis of the rectified superconducting alternator model 24 p0646 A79-48654

Superconductive magnetic energy storage inductor converter units 24 p0654 A79-50072

Superconducting Magnetic Energy Storage for electric power system stabilization 24 p0681 A79-51804

Electromagnetic launchers 24 p0702 A79-52006

**SUPERCONDUCTING POWER TRANSMISSION**

Effect of microwave radiation on the volt-ampere characteristics of superconducting bridges of variable thickness 23 p0395 A79-33690

Transient analysis of the rectified superconducting alternator 23 p0462 A79-38529

Review of hydrodynamics and heat transfer for large helium cooling systems 23 p0481 A79-40073

Automatic tension control for winding superconducting coils --- conferences [Y/EN-257] 24 p0734 A79-29384

Thermoelastic analysis of a superconducting cable [LA-7465-MS] 24 p0781 A79-32477

Energy losses in a flat transposed cable --- superconducting cable [LA-7635-MS] 24 p0781 A79-32481

**SUPERCONDUCTIVITY**

Applied Superconductivity Conference, Pittsburgh, Pa., September 25-28, 1978, Proceedings 22 p0235 A79-20526

Superconductivity for mirror fusion 22 p0236 A79-20542

MIT-DOE program to demonstrate an advanced superconducting generator 22 p0236 A79-20549

Applications of cryogenic technology. Volume 7 - Proceedings of the Conference on Cryogenic Energy Systems, Oak Brook, Ill., May 16-18, 1978 22 p0289 A79-27651

Cryogenic technology and superconductivity in controlled fusion 22 p0311 A79-31003

Superconductivity in antenna engineering 22 p0311 A79-31008

Refrigeration requirements for future superconductive energy related applications 22 p0311 A79-31019

**SUPERCONDUCTORS**

Electric power losses of current input into superconducting devices cooled by supercritical helium 22 p0235 A79-20530

Calculation of hysteresis losses in superconducting coils 23 p0432 A79-35174

Advances in cryogenic engineering. Volume 24 - Proceedings of the Second International Cryogenic Materials Conference, University of Colorado, Boulder, Colo., August 2-5, 1977 24 p0603 A79-44526

Some heat transfer and hydrodynamic problems associated with superconducting cables (SPTL) [NASA-TM-79023] 21 p0226 A79-15267

**SUPERCRITICAL FLOW**

Electric power losses of current input into superconducting devices cooled by supercritical helium 22 p0235 A79-20530

**SUPERHEATING**

Fossil superheating in geothermal steam power plants 21 p0014 A79-10122

Development of small solar power plants for rural areas in India 21 p0141 A79-17502

Structural design of a superheater for a central solar receiver [ASME PAPER 78-WA/PVP-1] 21 p0162 A79-19832

Experimental researches concerning the use of solar energy in the generation of electric energy 23 p0465 A79-38593

Cost study of superheating geothermal steam 24 p0707 A79-52572

**SUPERPOSITION (MATHEMATICS)**

Application of the superposition principle to solar-cell analysis 22 p0300 A79-29426

**SUPERSONIC COMBUSTION RAMJET ENGINES**

Characterization of a swept-strut hydrogen fuel-injector for scramjet applications 24 p0649 A79-49345

**SUPERSONIC DIFFUSERS**

On supersonic and subsonic diffusers for magnetohydrodynamic generator applications 22 p0279 A79-26186

**SUPERSONIC FLOW**

Supersonic flow in an MHD channel with a downwash flow at the inlet 21 p0085 A79-15342

Combustion of hydrogen in a supersonic flow in a channel in the presence of a pseudodiscontinuity 22 p0324 A79-31845

**SUPERSONICS**

Supersonic transport vis-a-vis energy savings [NASA-TM-75464] 24 p0763 A79-31163

**SUPPLYING**

Energy and input-output analysis --- for predicting impact on U.S. economy 21 p0115 A79-17223

Toward a rational energy supply system - Economics and diseconomies of scale in an expensive energy future 23 p0420 A79-34168

Energy availabilities for state and local development: 1973 data volume [ORNL/TM-5890-S2] 21 p0175 A79-10541

Energy availabilities for state and local development: 1974 data volume [ORNL/TM-5890-S3] 21 p0175 A79-10542

Future aviation fuels fuel suppliers views 21 p0202 A79-13194

US energy demand and supply, 1976-1985: Limited options, unlimited constraints [H-PRINT-95-43] 21 p0228 A79-15400

Symposium on Energy Today and Tomorrow [CSIR-S-145] 22 p0340 A79-17316

The planning and economic aspects of energy supply and demand in South Africa 22 p0341 A79-17325

The 1980 motor gasoline supply and demand. Analysis memorandum AM/ES/79-12 [DOE/EIA-0102/32] 23 p0589 A79-27337

Energy supply and demand in California 23 p0591 A79-27603

Coal supply for California 23 p0592 A79-27607

Petroleum supply/demand estimates and cost of petroleum imports, 1978-1980 [DOE/EIA-0102/20] 24 p0718 A79-28356

Petroleum supply/demand estimates and cost of petroleum exports, 1978-1979 [DOE/EIA-0102/40] 24 p0746 A79-30403

Projections of energy supply and demand for the 1978-1979 winter heating season [DOE/EIA-0102/33] 24 p0758 A79-30815

Assessment of potential US petroleum supply shortfalls, 1978 - 1980 [DOE/EIA-0102/13] 24 p0781 A79-32619

Energy Emergency Management Information System (EEMIS): Program plan [DOE/EIA-0135] 24 p0791 A79-32723

**SUPPORT SYSTEMS**

Support services for electric vehicles  
22 p0301 A79-29492  
Satellite Power Systems (SPS) concept definition  
study, exhibit C. Volume 7: System/subsystem  
requirements data book  
[NASA-CR-161223] 23 p0547 N79-23489

**SUPPORTS**

Fixed angle and seasonably adjustable structural  
support concepts for solar converters  
23 p0518 A79-41063  
Absence of bending effects on solar-receiver-tube  
fatigue  
23 p0537 A79-43682  
Microprocessor-controlled autonomous sun-following  
mount for solar photovoltaic energy planning  
[COO-4094-34] 24 p0789 N79-32702

**SURFACE COOLING**

Drag reduction by cooling in hydrogen fueled  
aircraft  
21 p0165 A79-20094  
Laminar flow stabilization by surface cooling on  
hydrogen fueled aircraft  
[AIAA PAPER 79-1863] 24 p0643 A79-47920

**SURFACE DIFFUSION**

Defect free very shallow p+n junction and  
associated photovoltaic effect  
23 p0520 A79-41082  
Effects of laser irradiation on a diffused layer  
in silicon  
23 p0521 A79-41083  
A study of the effective resistance of the  
diffused layer and its effect on solar cell  
performance  
22 p0367 N79-21541

**SURFACE DISTORTION**

Optical evaluation techniques for reflecting solar  
concentrators  
21 p0043 A79-11971

**SURFACE EFFECT SHIPS**

Progress towards 100-knot nonconventional ocean  
ships. II  
21 p0155 A79-18519

**SURFACE FINISHING**

Semiconductor liquid junction solar cells -  
Efficiency, electrochemical stability, and  
surface preparation  
21 p0037 A79-11783  
Effect of multiblade slurry saw induced damage on  
silicon solar cells  
23 p0498 A79-40902  
A high volume cost efficient production  
macrostructuring process --- for silicon solar  
cell surface treatment  
23 p0499 A79-40904  
Schottky effect and photovoltaic devices on the  
texturized surfaces  
23 p0522 A79-41100  
Fabrication of spectrally selective surfaces by  
thermal treatment of austenitic stainless steel  
AISI 321  
24 p0662 A79-50548  
Automated array assembly, phase 2  
[NASA-CR-158599] 23 p0550 N79-23512  
Observations made during the development of a  
thermal control system for a near earth orbiting  
satellite  
24 p0763 N79-31272  
Automated array assembly task in-depth study of  
silicon wafer surface texturizing  
[NASA-CR-162161] 24 p0770 N79-31771

**SURFACE GEOMETRY**

Effect of surface curvature on measurement of the  
absorptance properties of solar coatings  
21 p0442 A79-11879  
Optimum collection geometries for copper tube -  
copper sheet flat plate collectors  
21 p0127 A79-17387  
Performance of optimal geometry three step  
compound wedge stationary concentrator --- solar  
collector using flat side mirrors  
21 p0134 A79-17438  
Geometrical aspects of a cylindrical parabolic  
collector  
21 p0134 A79-17443  
Cavity-type surfaces for solar collectors  
22 p0283 A79-26497

The development of a stationary concentrator ---  
parabolic solar absorber surface effects on  
energy conversion performance  
23 p0464 A79-38586  
An experimental study of walls with latent heat  
for residences  
23 p0470 A79-38640

**SURFACE LAYERS**

Status report on selective surfaces --- solar  
collector absorbers  
21 p0126 A79-17374  
Fluid mechanics and thermal behavior of MHD  
channel slag layers  
23 p0391 A79-33391  
MHD slag electrical conductivity studies  
23 p0391 A79-33394  
A study of the effective resistance of the  
diffused layer and its effect on solar cell  
performance  
22 p0367 N79-21541

**SURFACE PROPERTIES**

The structure and properties of Cu-based selective  
surfaces formed on an Al-Cu alloy by chemical  
brightening and etching treatments --- for flat  
plate solar collectors  
21 p0127 A79-17384  
Radiation regime of inclined surfaces --- Russian  
book on solar energy engineering and  
microclimatology  
22 p0282 A79-26353  
Effect of form errors on the characteristics of  
ellipsoidal radiant energy concentrators  
22 p0296 A79-28667  
Selective materials for photothermal conversion of  
solar energy  
23 p0383 A79-32956  
Electrode development for coal fired  
MHD generators  
23 p0392 A79-33396  
Spectral selectivity of composite materials --- as  
solar energy absorbers  
23 p0437 A79-36146  
Relationship of optical degradation to surface  
morphology changes in solar absorbers  
23 p0446 A79-37158  
Measuring dirt on photovoltaic modules  
23 p0533 A79-43283  
The effect of errors in their shape on the  
characteristics of ellipsoidal concentrators of  
radiant energy  
24 p0637 A79-46905  
Investigation of the absorption and emission  
characteristics of an ideal selective surface  
--- for solar energy absorbers  
24 p0648 A79-49186  
Design of selective surfaces for solar energy  
collection  
24 p0655 A79-50180  
Chromium black coatings for photothermal  
conversion of solar energy. I - Preparation and  
structural characterization  
24 p0656 A79-50188  
R & D on advanced heat exchangers  
in Japan  
24 p0702 A79-52008  
Spectrally selective solar absorber coatings  
24 p0704 A79-52150  
Development of surfaces optically suitable for  
flat solar panels  
[NASA-CR-150831] 21 p0173 N79-10522  
A study of the physical and chemical properties of  
oil shale relevant to physical concentration  
processes  
23 p0569 N79-25445  
Structure of a black chrome solar selective surface  
[LBL-6691-REV] 24 p0753 N79-30778

**SURFACE REACTIONS**

Study of the interaction of H<sub>2</sub>O and O<sub>2</sub> with the  
surface of TiO<sub>2</sub> by electron stimulated  
desorption and Auger and characteristic loss  
spectroscopies  
21 p0037 A79-11793  
Charge transfer by surface states in the  
photoelectrolysis of water using a semiconductor  
electrode  
22 p0254 A79-22320  
Plasma surface interactions in controlled fusion  
devices; Proceedings of the Third International  
Conference, Abingdon, Oxon, England, April 3-7,  
1978  
23 p0442 A79-36876

- Surface processes in plasma wall interactions ---  
in tokamak experiments 23 p0442 A79-36877
- Surface interactions and conditioning techniques  
in tokamaks 23 p0443 A79-36880
- Tokamak plasma diagnosis by surface physics  
techniques 23 p0443 A79-36883
- Surface effects and impurity production in tokamak  
machines 23 p0443 A79-36884
- Plasma-surface interactions in Q-enhanced mirror  
fusion systems 23 p0444 A79-36887
- Solar energy pattern on building vertical walls of  
different orientations 23 p0463 A79-38581
- Plasma-surface interactions in tokamaks  
23 p0527 A79-41942
- SURFACE ROUGHNESS EFFECTS**
- The influence of rough terrain on pollutant  
dispersion and transport from a geothermal power  
complex 23 p0534 A79-43372
- A numerical study of the effects of complex  
terrain on dynamics of airflow and pollutant  
dispersion 23 p0535 A79-43383
- Development of surfaces optically suitable for  
flat solar panels --- using a reflectometer  
which separately evaluates spectral and diffuse  
reflectivities of surfaces  
[NASA-CR-161290] 24 p0771 N79-31780
- SURFACE STABILITY**
- Stability of alumina-base refractories in western  
lignite-ash slag environments --- linings for  
metallurgical furnaces  
[PB-293238/2] 24 p0731 N79-29249
- SURFACE TEMPERATURE**
- Computation of IR sky temperature and comparison  
with surface temperature --- for solar collector  
energy budgets 21 p0042 A79-11875
- Effect of the properties of the working body on  
the selection of the temperature of the surface  
of the electrodes of the channel of an MHD  
generator 21 p0167 A79-20419
- Use of satellite-derived sea surface temperatures  
by cruising OTEC plants 24 p0625 A79-45845
- Investigation of the temperature distribution over  
the width of the screen of low-temperature solar  
water heaters with tubular heat receivers  
24 p0637 A79-46909
- Geologic applications of thermal-inertia mapping  
from satellite --- Powder River Basin, Wyoming  
[E79-10279] 24 p0756 N79-33518
- SURFACE VEHICLES**
- Bus priority system studies 22 p0299 A79-29339
- The fleet operator's viewpoint --- on prototype  
electric bus development 22 p0302 A79-29495
- Advanced flywheel energy storage unit for a high  
power energy source for vehicular use  
24 p0683 A79-51821
- A study of flywheel energy storage for urban  
transit vehicles  
[PB-282929/9] 21 p0177 N79-10563
- Evaluation of a flywheel-powered shuttle car  
[FE-8890] 23 p0562 N79-24488
- SURFACTANTS**
- The relation of surfactant properties to the  
extraction of bitumen from Athabasca tar sand by  
a solvent-aqueous-surfactant process  
23 p0494 A79-40739
- Description and status report of a program to  
define sea water-surfactant interactions in  
relation to the foam system --- OTEC power plant  
24 p0623 A79-45833
- Surfactant-assisted liquefaction of particulate  
carbonaceous substances  
[NASA-CASE-NPO-13904-1] 21 p0179 N79-11152
- SURVEYS**
- A time domain survey of the Los Alamos Region, New  
Mexico  
[LA-7657-MS] 22 p0365 N79-21248

- Gasification of coal with high-temperature reactor  
heat - Investigations concerning the market and  
the economics 22 p0264 A79-23828
- Methane formation during the hydrogasification and  
the gas phase pyrolysis of defined aromatics  
22 p0265 A79-23829
- Gasification of raw lignite in the tube-furnace  
gasifier 22 p0310 A79-30996
- The gasification of ethyl alcohol 23 p0386 A79-33228

## SUBJECT INDEX

## SYNTHETIC FUELS

The microbial production of methane from the putrescible fractions of sorted household waste  
23 p0396 A79-33753

The use of anaerobic digestion for the treatment and recycling of organic wastes  
23 p0396 A79-33754

The Synthane process - A technical and economic assessment --- of coal gasification  
23 p0410 A79-34089

Synthetic natural gas production from peat  
23 p0411 A79-34092

Transmission of energy by open-loop chemical energy pipeline  
23 p0411 A79-34096

Rough cost estimates of solar thermal/coal or biomass derived fuels  
[AIAA PAPER 79-0568]  
23 p0476 A79-38893

Thermodynamic considerations in the production of synthetic fuels from coal  
24 p0615 A79-45603

Comparison of alternate fuels for aircraft  
24 p0668 A79-51100

Synthetic fuels from peat gasification  
24 p0667 A79-51856

Steam gasification of Illinois coal and coke  
24 p0687 A79-51857

The effect of gasifier steam demand on the overall efficiency of a coal gasification combined-cycle power plant  
24 p0687 A79-51859

Chemicals from coal. Report based on HRI H-coal product  
[FE-1534-50]  
21 p0180 A79-11166

The Texaco coal gasification process for manufacture of medium BTU gas  
23 p0593 A79-27614

Synthetic natural gas in California: When and why --- from coal  
23 p0593 A79-27615

Coal-to-gasoline conceptual design and market evaluation of methanol fuel and methanol-derived gasoline  
[FE-2416-37]  
24 p0734 A79-29378

Addition of devolatilization equations to synthane computerized mathematical model  
[COO-0277-1]  
24 p0766 A79-31418

Thermodynamic-economic analysis of the synthane process  
[COO-4589-1]  
24 p0779 A79-32379

**SYNTHESIS**

Synthesis and properties of useful metal hydrides - A review of recent work at Brookhaven National Laboratory  
22 p0250 A79-21699

**SYNTHETIC FIBERS**

Ultrafine polybenzimidazole (PBI) fibers --- separators for alkaline batteries and dfuel cells  
[NASA-CR-159644]  
24 p0764 A79-31350

**SYNTHETIC FUELS**

The status of alcohol fuels utilization technology for highway transportation  
21 p0003 A79-10035

Hydrogen production from high temperature electrolysis and fusion reactor  
21 p0015 A79-10126

Some problems and benefits from the hydrogen fueled spark ignition engine  
21 p0016 A79-10130

Utility fuel cells for biomass fuel  
21 p0016 A79-10131

Characteristics and combustion of future hydrocarbon fuels  
21 p0036 A79-11599

Catalysis in coal conversion --- Book  
21 p0051 A79-12873

Alternative hydrocarbon fuels: Combustion and chemical kinetics; SQUID Workshop, Loyola College, Columbia, Md., September 7-9, 1977, Technical Papers  
21 p0051 A79-12977

Alternative fuels and combustion problems  
21 p0051 A79-12978

Future fuels in gas turbine engines  
21 p0051 A79-12979

Alternative fuels for reciprocating internal combustion engines  
21 p0051 A79-12980

Use of alternative fuels in stationary combustors  
21 p0052 A79-12981

Ignition/stabilization/atomization - Alternative fuels in gas turbine combustors  
21 p0052 A79-12982

Combustion of droplets and sprays of some alternative fuels  
21 p0052 A79-12983

Flame emissivities - Alternative fuels  
21 p0052 A79-12984

Role of aromatics in soot formation  
21 p0053 A79-12988

Emission control techniques for alternative fuel combustion  
21 p0053 A79-12990

Vehicle operation on fuels from solar energy  
21 p0059 A79-13663

Alternate aircraft fuels prospects and operational implications  
21 p0066 A79-14138

The fate of fuel nitrogen - Implications for combustor design and operation  
21 p0080 A79-14927

Biomass and wastes as energy resources - 1977 update  
21 p0091 A79-15868

Integrated low Btu gasification, combined cycle plant considerations and control  
21 p0094 A79-15905

Synthetic fuels from coal  
21 p0145 A79-17636

Synthetic fuels from Gulf Coast lignite  
21 p0146 A79-17643

The Dow Chemical liquefaction process  
21 p0147 A79-17644

A characteristic time correlation for combustion inefficiency from alternative fuels  
[AIAA PAPER 79-0357]  
21 p0158 A79-19687

Synthetic oil from coal - The economic impact of five alternatives for making hydrogen from coal and steam  
22 p0262 A79-23719

An economic analysis of synthetic fuels production from eastern oil shale via hydrotreat processing  
22 p0264 A79-23780

Effects of fuel properties on soot formation in turbine combustion  
[SAE PAPER 781026]  
22 p0274 A79-25899

Shale oil - The answer to the jet fuel availability question  
[SAE PAPER 781027]  
22 p0274 A79-25900

Evaluation of the application of some gas chromatographic methods for the determination of properties of synthetic fuels  
22 p0274 A79-25917

Fuels of the future. I --- demand and proposed sources  
22 p0282 A79-26404

Sampling and analysis of synthetic fuel processes --- coal gasification and liquefaction effluent analysis  
22 p0294 A79-26538

Effects of the combustion products of coal-derived fuels on gas turbine hot-stage hardware  
[ASME PAPER 79-GT-160]  
23 p0378 A79-32422

Development of an industrial gas turbine combustor burning a variety of coal-derived low Btu fuels and distillate  
[ASME PAPER 79-GT-172]  
23 p0379 A79-32433

Thermionic emission properties of some synthetic coal slags  
23 p0392 A79-33395

Production of synthetic fuels - An important civilian application of laser fusion  
23 p0408 A79-34066

A comparison of coal and biomass as feedstocks for synthetic fuel production  
23 p0412 A79-34097

ECO-FUEL II - A superior refuse derived fuel  
23 p0417 A79-34148

Three modes of energy cost analysis - Then-current, base-year, and perpetual-constant dollar  
23 p0422 A79-34277

The use of non-fossil-derived hydrogen in coal conversion processes  
23 p0451 A79-37882

Design, operation, and economics of the Energy Plantation as an alternate source of fuels  
23 p0467 A79-38616

Economic factors in refuse derived fuel utilization  
23 p0490 A79-40407

- Process aging studies in the conversion of methanol to gasoline in a fixed bed reactor  
23 p0492 A79-40454
- Coal liquefaction and deashing studies. I - Consol Synthetic Fuel process. II - Solvent Refined Coal process

**TEMPERATURE DEPENDENCE**

Efficiency of tandem solar cell systems as function of temperature and solar energy concentration ratio  
24 p0785 N79-32671

**TEMPERATURE DISTRIBUTION**

A parametric investigation on flat-plate solar collectors  
21 p0128 A79-17391

Velocity, temperature, and electrical conductivity profiles in hydrogen-oxygen MHD duct flows  
22 p0279 A79-26184

Heat transfer in a solar radiation absorbing fluid layer flowing over a substrate  
22 p0281 A79-26204

Effects of nonuniform distribution of the absorber temperature on radiation losses of a flat-plate solar collector  
23 p0530 A79-42894

Natural convection in porous media and geothermal systems  
23 p0533 A79-43014

Investigation of the temperature distribution over the width of the screen of low-temperature solar water heaters with tubular heat receivers  
24 p0637 A79-46909

Thermal analysis in the focal spot of a solar furnace  
24 p0641 A79-47794

A simulation exercise of a cavity-type solar receiver using the HEAP program  
24 p0670 A79-51730

On the calculation of the temperature distribution in a packed bed for solar energy applications  
24 p0712 A79-53495

**TEMPERATURE EFFECTS**

Effect of inlet temperature on the performance of a catalytic reactor  
21 p0035 A79-11542

Thermionics and its application to the SPS --- solar power satellite for energy conversion  
21 p0109 A79-16616

Temperature dependent parameter analysis of thermoelectric devices  
21 p0113 A79-16740

The thermomechanical behavior of polyvinyl butyral film and its effect on focal stability of a solar mirror-laminate  
22 p0239 A79-20824

Mixing effects of two different types of hydrides --- phase behaviors and energy storage applications  
22 p0251 A79-21714

Temperature dependence of photovoltaic solar energy conversion for GaAs homojunction solar cell  
22 p0256 A79-22768

Collisional transport --- of plasmas in plane and toroidal geometry  
22 p0257 A79-22980

Mechanism of erosion of metal electrodes of the channel of a MHD generator  
22 p0306 A79-30391

The effects of wall temperature on light impurities in Alcator --- tokamak device  
22 p0313 A79-31188

Fuel effects in recent combustion turbine burner tests of six coal liquids  
[ASME PAPER 79-GT-137]  
23 p0378 A79-32406

A new concept of thermionic converter  
23 p0381 A79-32636

Fluid mechanics and thermal behavior of MHD channel slag layers  
23 p0391 A79-33391

Designing thermally efficient buildings for the U.S. Midwest  
23 p0397 A79-33951

State of development in the area of water electrolysis /near term/ --- hydrogen production technology  
23 p0414 A79-34114

Temperature characteristics of high-voltage germanium photoconverters  
23 p0433 A79-35378

Temperature dependence of the optical properties of silicon  
23 p0437 A79-35820

The problem of carbon dioxide --- fossil fuel consumption effect on air pollution  
23 p0438 A79-36201

Temperature dependence of selective properties for black chromium solar absorbers  
23 p0465 A79-38600

Warm plasma effects on drift cyclotron loss cone mode --- in mirror machines  
23 p0478 A79-39568

Influence of temperature on operational parameters of pCdTe-nCdS film photoconverters  
24 p0636 A79-46760

Temperature dependence of the current-voltage characteristics of silicon MIS solar cells  
24 p0648 A79-49213

Lateral flow concept for rock bed systems --- of solar heating  
24 p0654 A79-50174

Temperature characteristics of high-voltage germanium photogenerators  
24 p0662 A79-50701

Long-term weathering effects on the thermal performance of the Libbey-Owens-Ford (liquid) solar collector  
[NASA-CR-161093]  
22 p0348 N79-18450

Indoor test for thermal performance of the Sunmaster evacuated tube (liquid) solar collector  
[NASA-CR-161306]  
24 p0797 N79-33561

**TEMPERATURE GRADIENTS**

Solar engines - The thermal wheel and beyond  
21 p0095 A79-15909

Power generation using thermal vapor pumping and hydro-pumped storage - Thermal gradient utilization cycle /TGUC/  
21 p0095 A79-15914

Thermal gradient-hydro generation cycle /TGUC/  
21 p0098 A79-16102

Continental geotherms during the Archean --- heat production in ancient earth crust  
22 p0269 A79-24620

Absence of bending effects on solar-receiver-tube fatigue  
23 p0537 A79-43682

Thermal properties of the Florida Current as related to ocean thermal energy conversion /OTEC/  
24 p0641 A79-47796

The steady state salt gradient solar pond  
24 p0661 A79-50540

Temperature profile and power calculations in gas core reactors  
24 p0702 A79-51998

**TEMPERATURE MEASUREMENT**

Instrumentation development for in situ coal gasification  
21 p0006 A79-10053

Instrumentation for in situ coal gasification. II - Thermal and gas sampling diagnostic techniques  
21 p0032 A79-10520

Detection of internal defects in a liquid natural gas tank by use of infrared thermography  
21 p0048 A79-12507

A comparison of the silica and Na-K-Ca geothermometers for thermal springs in Utah  
21 p0097 A79-16075

Transient plate temperature in flat plate solar collectors  
24 p0603 A79-44294

A theoretical analysis of neutral beam probe for measuring ion temperature of a plasma  
24 p0606 A79-44915

Regional-scale sea surface temperature determination from the geostationary environmental operational satellite  
24 p0617 A79-45781

Use of satellite-derived sea surface temperatures by cruising OTEC plants  
24 p0625 A79-45845

**TEMPERATURE MEASURING INSTRUMENTS**

A microprocessor compatible temperature measuring system --- for solar house energy monitoring  
21 p0088 A79-15839

Temperature calibration for solar heating and cooling system evaluation  
21 p0089 A79-15846

An inexpensive multiplexer temperature measuring system for monitoring and evaluation of solar collectors  
21 p0089 A79-15847

Evaluation of a thermographic scanning device for solar energy and conservation applications  
24 p0611 A79-45229

## TEMPERATURE PROFILES

## THERMAL RESOURCES

Geothermal power plants of New Zealand, Philippines, and Indonesia: A technical survey of existing and planned installations [COO-4051-23] 24 p0738 N79-29622

## THERMAL SIMULATION

Thermal modeling of coal-fired MHD plant components 21 p0017 A79-10138

Simulation study of natural convection heat transfer in inclined air layers with application to solar energy collection 21 p0129 A79-17401

Gas stream composition and temperature determination in a coal-fired MHD simulation facility [ASME PAPER 78-WA/HT-23] 21 p0161 A79-19810

Limitations of solar assisted heat pump systems [ASME PAPER 78-WA/SCI-1] 21 p0162 A79-19834

Thermal vacuum testing of solarpanels by solar simulation and infrared simulation 24 p0658 A79-50345

Thermal performance evaluation of the Calmac (liquid) solar collector [NASA-CR-150819] 21 p0173 N79-10521

## THERMAL STABILITY

Some aspects of aircraft jet engine fuels 21 p0035 A79-11368

Space-dependent thermal stability of reacting toramak plasmas 22 p0253 A79-22242

Stability of gas in the gap of inclined flat plate solar collectors - Effects of convective boundary condition and radiation 23 p0358 A79-33990

Jet Fuel Thermal Stability [NASA-TM-79231] 24 pC795 N79-33336

## THERMAL STRESSES

Thermal stress cracking and the enhancement of heat extraction from fractured geothermal reservoirs [LA-7235-MS] 21 p0158 N79-12568

## THERMAL VACUUM TESTS

Development and testing of two- and three-stage heat pipe radiators [AIAA PAPER 79-1060] 23 p0455 A79-38040

Thermal vacuum testing of solarpanels by solar simulation and infrared simulation 24 p0658 A79-50345

## THERMIONIC CATHODES

Diminide thermionic energy conversion with lanthanum-hexaboride electrodes 21 p0053 A79-13098

## THERMIONIC CONVERTERS

Lithium and potassium heat pipes for thermionic converters 21 p0013 A79-10113

Thermionic power plant design point selection - The economic impact 21 p0025 A79-10214

Characteristics of combustion-heated thermionic diodes 21 p0026 A79-10215

Commercial applications of thermionic conversion using a fusion reactor energy source - A preliminary assessment 21 p0026 A79-10219

Prospects of thermionic power systems 21 p0026 A79-10220

Diminide thermionic energy conversion with lanthanum-hexaboride electrodes 21 p0053 A79-13098

Thermionics and its application to the SPS --- solar power satellite for energy conversion 21 p0109 A79-16616

The advanced thermionic converter with microwave power as an auxiliary ionization source 21 p0153 A79-18470

Optimization of a Knudsen Cs-Ba thermionic converter 22 p0241 A79-20940

Optimization of an ideal thermionic converter 22 p0241 A79-20941

Contribution to the theory of the pulsed mode of operation of the thermionic energy converter. II 22 p0246 A79-21542

A new concept of thermionic converter 23 p0381 A79-32636

Theory of the pulsed operation of a thermionic converter. II - Ionization stage 23 p0442 A79-36815

## Thermionic energy converter investigations

24 p0699 A79-51981

ZEPO - The worlds largest thermionic converter 24 p0699 A79-51982

Recent progress in hybrid mode thermionic converter development 24 p0700 A79-51986

State of cermet electrode development for flame heated thermionic converters 24 p0700 A79-51989

The effects of electron thermal conductivity on thermionic energy converters 24 p0700 A79-51990

A cesium vapor source based on a gas-regulated heat pipe for thermionic energy transducers 24 p0704 A79-52166

Results of an experimental investigation of a low-temperature thermionic converter with an expanded collector 24 p0704 A79-52167

## THERMIONIC DIODES

Characteristics of combustion-heated thermionic diodes 21 p0026 A79-10215

A new concept of thermionic converter 23 p0381 A79-32636

Flame-fired thermionic diode development 24 p0700 A79-51988

State of cermet electrode development for flame heated thermionic converters 24 p0700 A79-51989

Cryogenic thermal diode heat pipes [NASA-CR-152268] 24 p0719 N79-28470

## THERMIONIC EMISSION

Thermionic emission properties of some synthetic coal slags 23 p0392 A79-33395

## THERMIONIC EMITTERS

Diminide thermionic energy conversion with lanthanum-hexaboride electrodes 21 p0053 A79-13098

Selective covers for natural cooling devices --- in space 22 p0272 A79-25522

## THERMIONIC POWER GENERATION

The Department of Energy's thermionic energy conversion program 21 p0025 A79-10213

A summary of USSR thermionic energy conversion activity 21 p0026 A79-10216

NASA's thermionic technology program 21 p0026 A79-10217

Increasing the efficiency of coal-fired steam electric plants with thermionic topping 21 p0096 A79-15921

Design study of a coal-fired thermionic-topped powerplant using an advanced boiler 24 p0700 A79-51983

NEP heat pipe radiators --- Nuclear Electric Propulsion 24 p0700 A79-51985

Optimization of powerful energy supply systems for application in space [IAP PAPER 79-169] 24 p0710 A79-53333

Power coupling alternatives for the NEP thermionic power system [NASA-CR-159372] 22 p0367 N79-21547

Systems definition space-based power conversion systems --- for satellite power transmission to earth [NASA-CR-150268] 23 p0546 N79-23483

Combined cycles for power generation [VRI-LEC-SER-1978-6-VOL-2] 24 p0723 N79-28738

Thermionic conversion 24 p0724 N79-28742

## THERMOCHEMICAL PROPERTIES

The efficiencies of thermochemical energy transfer 21 p0054 A79-13575

A hybrid chemical concept for solar energy storage 22 p0254 A79-22271

Energy storage efficiency for the ammonia/hydrogen-nitrogen thermochemical energy transfer system 22 p0261 A79-23718

Solar energy storage using reversible hydration-dehydration of CaO-Ca(OH)<sub>2</sub> [AIAA PAPER 79-0986] 23 p0458 A79-38190

## TILES

Pecuperative system for high and ultra-high temperature flue gases  
[IDO-1672-2] 24 p0741 N79-29649

## TIMBER INVENTORY

FLAME: Forestry Lands Allocated for Managing energy. Feasibility study  
[AD-A059993] 21 p0217 N79-14507

## TIME DEPENDENCE

Torque ripple in a vertical axis wind turbine 21 p0029 A79-10239  
Yield of ground storage of heat in solar ponds 21 p0133 A79-17429

## TIME MEASUREMENT

Measurement of minority carrier lifetime in solar cells from photo-induced open-circuit voltage decay 23 p0438 A79-36610

## TIME RESPONSE

Simmer-enhanced flashlamp-pumped dye laser 23 p0384 A79-32981  
Stochastic simulation of hourly global radiation sequences 24 p0661 A79-50541

## TIN

Sb-I-Ca process for thermochemical hydrogen production 24 p0715 A79-54296

## TIN COMPOUNDS

Changes within tin-containing catalysts under hydrotreating conditions --- for coal liquefaction 24 p0628 A79-45993

## TIN OXIDES

Potential for low cost, high efficiency solar cells using indium tin oxide on semiconductor /OSOS/ solar cells 21 p0122 A79-17338  
Transparent conducting coatings for solar cells 21 p0124 A79-17350  
Angle-of-incidence effects in electron-beam-deposited SnO<sub>2</sub>/Si solar cells 22 p0272 A79-25069  
The operation of the semiconductor-insulator-semiconductor solar cell - Experiment 23 p0440 A79-36680  
Solar-cell characteristics and interfacial chemistry of indium-tin-oxide/indium phosphide and indium-tin-oxide/gallium arsenide 23 p0480 A79-39944  
Theoretical efficiency of SnO<sub>2</sub>/Si solar cells 23 p0480 A79-39945  
Barrier heights and interfacial effects in SnO<sub>2</sub>/Si solar cells 23 p0505 A79-40965  
Indium-tin oxide/indium phosphide and indium-tin oxide/gallium arsenide solar cells 23 p0505 A79-40966  
Efficient electron-beam-deposited ITO/n-Si solar cells 24 p0629 A79-46152  
Fabrication and characterization of SnO<sub>2</sub>/n-Si solar cells 24 p0642 A79-47802  
Properties of chemically sprayed SnC<sub>2</sub> antireflecting films on Si solar cells 24 p0656 A79-50196  
An anomalous photocurrent in SnC<sub>2</sub>-Si heterojunction solar cells 24 p0668 A79-50950

## TITANIUM

Discharge characteristics of a soluble iron-titanium battery system 22 p0286 A79-26996  
The effects of copper and titanium on silicon solar cells 23 p0504 A79-40961  
Supply of reactants for Redox bulk energy storage systems [NASA-TM-78995] 21 p0183 N79-11479  
FeTi methanation catalyst [BNL-24477] 24 p0764 N79-31364

## TITANIUM ALLOYS

New alloy systems for hydrogen storage 21 p0038 A79-11806  
Hydride formation of C14-type Ti alloy 22 p0250 A79-21701

The iron-titanium - hydrogen system: A transmission electron microscope /TEM/ study 22 p0285 A79-26947

Materials for windmill blades 23 p0453 A79-37897  
Erosion study of different materials affected by coal ash particles 24 p0646 A79-48864

## TITANIUM COMPOUNDS

Electronic structure and physical properties of Ti-H and Zr-H using NMR 22 p0248 A79-21685  
The use of FeTi-hydride for production and storage of suprapure hydrogen 22 p0250 A79-21700

## TITANIUM OXIDES

Study of the interaction of H<sub>2</sub>O and O<sub>2</sub> with the surface of TiO<sub>2</sub> by electron stimulated desorption and Auger and characteristic loss spectroscopies 21 p0037 A79-11793  
Preparation of titanium dioxide films as solar photocatalysts 24 p0656 A79-50191

## TITRATION

An improved method for analysis of hydroxide and carbonate in alkaline electrolytes containing zinc 21 p0035 A79-11546

## TOKAMAK DEVICES

Doublet III design and construction --- Tokamak fusion research device 21 p0018 A79-10145  
Demonstration and commercial prototype tokamak reactors 21 p0018 A79-10146  
On the ion energy balance in TFR with and without neutral injection heating 21 p0069 A79-14452  
Recent results from the PLT tokamak 21 p0069 A79-14453  
Review of tokamak theory results 21 p0069 A79-14454  
Progress in tokamak experimental research in the Soviet Union 21 p0069 A79-14455  
Review of results from DITE tokamak 21 p0069 A79-14456  
Experiments on adiabatic compression of a tokamak plasma in Tuman-2 21 p0069 A79-14457  
Toroidal high-beta systems 21 p0070 A79-14462  
Present status of two R.F. heating schemes - I.C.R.H. and L.H.R.H. --- Ion Cyclotron Resonant Heating and Lower-Hybrid Resonant Heating of plasma 21 p0071 A79-14467  
Tokamak reactors for breakeven: A critical study of the near-term fusion reactor program --- Book 21 p0077 A79-14776  
Review of experimental results. I, II --- MHD instability effects on tokamak confinement with ohmic heating 21 p0077 A79-14778  
MHD equilibrium and stability --- in tokamak devices 21 p0078 A79-14779  
Collisional transport --- particle diffusion and heat transport in tokamak 21 p0078 A79-14780  
Magnetic divertors --- in large tokamak plasma confinement experiments 21 p0078 A79-14781  
The 'PINTOR 1' design - A minimum size tokamak experimental reactor 21 p0078 A79-14782  
Philosophy and physics of predemonstration fusion devices 21 p0078 A79-14783  
Characteristics of a predemonstration fusion device 21 p0078 A79-14784  
Compact experiments for alpha-particle heating --- of confined D-T plasma in tokamak 21 p0078 A79-14786  
Superconducting magnet systems in EPP designs --- Experimental Power Reactor 21 p0079 A79-14789  
Materials problems and possible solutions for near term tokamak fusion reactors 21 p0079 A79-14790

Modern engine development test techniques --- for helicopters  
21 p0155 A79-18680  
Energy efficient aircraft engines  
[AIAA PAPER 79-1861] 24 p0643 A79-47918
- TURBOSHAFTS**  
Modern engine development test techniques --- for helicopters  
21 p0155 A79-18680  
An advanced technology engine family for general aviation  
[AIAA PAPER 79-1161] 24 p0669 A79-51705  
Single shaft automotive gas turbine engine characterization test  
[NASA-CR-159654] 24 p0778 N79-32129
- TURBULENCE EFFECTS**  
On-line control of a large horizontal axis wind energy conversion system and its performance in a turbulent wind environment  
21 p0028 A79-10236  
Analysis of wind turbine generator rotor response to one-dimensional turbulence  
21 p0077 A79-14768
- TURBULENT BOUNDARY LAYER**  
Transient behavior of the fluid and electrical properties in the turbulent boundary layer of an MHD channel  
23 p0392 A79-33402  
Investigation of velocity profiles in an MHD generator channel using combustion products  
24 p0706 A79-52371  
Insulating wall boundary layer in a Faraday MHD generator  
[FE-23417] 22 p0365 N79-21310
- TURBULENT FLOW**  
A two-dimensional pulverized coal combustor model --- for MFD generators  
23 p0390 A79-33383  
A numerical simulation model for entrained flow coal gasification. I - The hydrodynamical model  
23 p0410 A79-34087
- Preliminary results of a field experiment to characterize wind flow through a vertical plane  
[PNL-2518] 21 p0203 N79-13322
- TURBULENT MIXING**  
Computer simulation of a solar energy system with a viscous-entrainment liquid storage tank model  
24 p0609 A79-45213  
Mixing and kinetic processes in pulverized coal combustors  
[EPRI-PP-806-SY] 23 p0589 N79-27330
- TURBULENT WAKES**  
Energy effectiveness of arbitrary arrays of wind turbines  
[AIAA PAPER 79-0114] 21 p0156 A79-19540  
The interaction of windmill wakes  
23 p0482 A79-40111  
Wake interaction in an array of windmills - Theory and preliminary results  
23 p0483 A79-40112  
Performance of windmills in a closely spaced array  
23 p0537 A79-43681
- TURKEY**  
Investigations of solar heat production for household heating in Turkey  
22 p0253 A79-22265  
Calculation of solar energy incident on non-horizontal surfaces over Turkey  
22 p0253 A79-22266  
The role of solar energy in the solution of Turkey's energy predicament  
23 p0404 A79-34035
- TWO DIMENSIONAL FLOW**  
Solids mixing and fluidization characteristics in a tube filled bed --- of fluidized bed coal combustion  
21 p0008 A79-10070  
A two dimensional vortex sheet model of a Savonius Rotor  
22 p0278 A79-26178  
Vortex sheet analysis of the Giromill --- vertical axis wind turbine with straight blades  
22 p0278 A79-26179  
Two-dimensional MHD channel design --- for energy performance improvement at lower wall temperature  
22 p0279 A79-26183  
Two-dimensional analyses related to wave-energy extraction by submerged resonant ducts  
22 p0312 A79-31099  
A two-dimensional pulverized coal combustor model --- for MHD generators  
23 p0390 A79-33383  
Two-dimensional analysis of vertical axis windmills  
22 p0353 N79-19446
- TWO FLUID MODELS**  
A collisional plasma rotating between two cylinders  
21 p0049 A79-12694
- TWO PHASE FLOW**  
The role of interfacial heat and mechanical energy transfers in a liquid-metal MHD generator  
[ASME PAPER 78-WA/HT-33] 21 p0161 A79-19814  
Experimental study of the characteristics of heat and mass transfer in a two-component low-temperature heat pipe  
22 p0246 A79-21585  
Modeling two-phase flow in a swirl combustor  
22 p0280 A79-26189  
Modeling the champagne effect in compressed air energy storage  
22 p0280 A79-26190  
Two-phase LMHD mixer-development experiments --- Liquid-Metal MHD generator flow characteristics  
23 p0394 A79-33422  
An experimental investigation of rotating-drum separators for liquid-metal MHD applications  
23 p0395 A79-33423  
A numerical simulation model for entrained flow coal gasification. I - The hydrodynamical model  
23 p0410 A79-34087  
Studies on two-phase flow mixing pertaining to liquid-metal magnetohydrodynamic power generation  
23 p0527 A79-42030  
Core unit testing of the APL/JHU shell-less folded tube heat exchanger --- for OTEC  
24 p0618 A79-45788  
Heat transfer in geothermal systems  
24 p0638 A79-47256

Numerical simulation of the compaction-subsidence phenomena in a reservoir for two-phase nonisothermal flow 23 p0540 W79-22401

Description of the 3-dimensional 2-phase simulator SHAFT78 for use in geothermal reservoir studies --- mass and energy balance for two phase flow in porous media [LBL-8802] 24 p0786 W79-32684

Solid electrolyte fuel cell for electric utility power generation  
24 p0682 A79-51815

Sodium/sulfur batteries for peak power generation  
24 p0684 A79-51836

Electricity rate systems and energy conservation  
24 p0696 A79-51959

Development of sodium-sulfur batteries for utility application  
[EPRI-EM-683] 21 p0186 A79-11502

Impact of electric passenger automobiles on utility system loads, 1985 - 2000  
[EPRI-PA-623] 21 p0203 A79-13281

Assessment of the solid waste impact of the National Energy Plan  
[BNL-50708] 21 p0213 A79-13572

Current and projected fuel costs --- electric rate schedules and projected costs of fossil, synthetic, and nuclear fuels  
21 p0218 A79-14532

A detailed analysis of the impact of onsite equipment on utility costs --- marginal costs of providing backup power for solar energy systems  
21 p0218 A79-14535

Photovoltaic power systems for rural areas of developing countries  
[NASA-TM-79097] 21 p0229 A79-15411

Assessment of the potential of solar thermal small power systems in small utilities  
[NASA-CR-158093] 22 p0335 A79-16377

Utility operational experience on the NASA/DOE Mod-OA 200-kW wind turbine  
[NASA-TM-79084] 22 p0360 A79-20494

Venture analysis case study for on-site fuel cell energy systems  
[PCR-0783-VOL-1] 22 p0361 A79-20505

Thermal power systems, small power systems application project. Volume 1: Executive summary  
[NASA-CR-157441] 23 p0560 A79-24462

Research at Sandia Laboratories for Solar Thermal Large Power Systems Program  
[SAND-78-8051] 23 p0565 A79-24510

Community application of integrated energy/utility systems  
[PB-290675/8] 23 p0566 A79-24520

Large horizontal axis wind turbine development  
[NASA-TM-79174] 23 p0581 A79-26504

Assessment of load management on the electric power system --- conferences  
[CONF-781182-3] 23 p0590 A79-27412

Electric utilities and solar energy: The service contract in a new social context  
[ORAU/IEA(O)-79-3] 23 p0597 A79-27685

Solar Heating and Cooling of Buildings (SHACOB) requirements definition and impact analysis  
[EPRI-ER-808-VOL-1] 23 p0597 A79-27687

Grip-connected integrated community energy system. Phase 2: Detailed feasibility and preliminary design, stage 2  
[COO-4337-2/2] 23 p0598 A79-27701

Gas-steam turbine combined cycle power plants  
[ANL/CES-TE-78-4] 24 p0727 A79-28775

Comparative evaluation of recent reports on the energy conservation potential from cogeneration  
[ORNL/TM-6602] 24 A79-28776

Cost effective solar hot water system for Econo-Travel Motor Hotel located at Woodbridge, Virginia  
[COO-4661-1] 24 p0739 A79-29635

Implications of the fusion power source to the electric utility industry  
[EPRI-TR-943-54] 24 p0740 A79-29642

Study of electrostatic precipitators installed on oil-fired burners --- for use in the utility industry  
[EPRI-PP-792-VOL-2] 24 p0760 A79-30848

Developing small hydroelectric dam potential  
[PB-296238/9] 24 p0802 A79-33601

Distribution automation and control support; Analysis and interpretation of DAC working group results for use in project planning  
[NASA-CR-162331] 24 p0804 A79-34074

**UTILITY AIRCRAFT**  
Environmental factors affecting the installation and operation of gas turbine engines in agricultural aircraft  
[SAE PAPER 781010] 22 p0274 A79-25892

**UTILIZATION**  
System for projecting the utilization of renewable resources. SPURR methodology  
[ERHQ/2322-77/4] 21 p0174 A79-10538

Overview of solar system design and application principles  
[SAND-78-2419C] 24 p0726 A79-28762

A control system analysis of the energy growth model: Coal  
24 p0736 A79-29595

Applications of thermal energy storage to process heat storage and recovery in the paper and pulp industry  
[NASA-CR-159398] 24 p0756 A79-30801

Solar (solar assisted reactor) power system  
[BNL-25633] 24 p0772 A79-31787

**V**

**VACUUM CHAMBERS**  
Integration of evacuated tubular solar collectors with lithium bromide absorption cooling systems  
21 p0139 A79-17483

Numerical computation of the loss coefficients for evacuated cylindrical collector receiver tubes  
[ASME PAPER 78-WA/SOL-3] 21 p0162 A79-19836

**VACUUM DEPOSITION**

- Stoichiometric Cu<sub>2</sub>S thin films for solar cells 21 p0123 A79-17349
- Gold, silver, chromium, and copper cermet selective surfaces for evacuated solar collectors 22 p0256 A79-22855
- The operation of the semiconductor-insulator-semiconductor solar cell - Experiment 23 p0440 A79-36680
- Chemical vapor deposition of spectrally selective surfaces for high-temperature photothermal conversion 23 p0445 A79-37155
- Efficient electron-beam-deposited ITO/n-Si solar cells 24 p0629 A79-46152

**VACUUM EFFECTS**

- Evacuated solar flat-plate collectors for economic applications 21 p0133 A79-17435

**VACUUM MELTING**

- Vacuum die casting of silicon sheet for photovoltaic applications [NASA-CR-162360] 24 p0798 N79-33566

**VACUUM PUMPS**

- Problems in the use of cryogenic pumps in thermonuclear synthesis 22 p0305 A79-30264

**VACUUM SYSTEMS**

- A vacuum solar thermal collector with optimal concentration 21 p0043 A79-11970
- 'Chemical heat storage pump' - Storage and utilization of solar energy through reversible chemical reaction in vacuum systems on the example of the system CaCl<sub>2</sub>-H<sub>2</sub>O 23 p0470 A79-38641

**VACUUM TESTS**

- Ultraviolet irradiation at elevated temperatures and thermal cycling in vacuum of PEP-A covered silicon solar cells 23 p0498 A79-40898

**VACUUM TUBES**

- Performance of vacuum tube solar collector systems 21 p0102 A79-16424
- Analysis, development and testing of a fixed tilt solar collector employing reversible Vee-Trough reflectors and vacuum tube receivers 23 p0477 A79-39101
- A two-dimensional thermal analysis of a new high-performance tubular solar collector 22 p0352 N79-19060

**VALLEYS**

- Application of LANDSAT data and digital image processing --- Ruhr Valley, Germany [E79-10102] 22 p0339 N79-17291

**VALUE ENGINEERING**

- Engineering handbook on the atmospheric environmental guidelines for use in wind turbine generator development [NASA-TP-1359] 21 p0223 N79-14679

**VALVES**

- Erosion testing of potential valve materials for coal gasification systems [PB-293308/3] 24 p0720 N79-28592

**VAPOR DEPOSITION**

- Growth of refractory oxide layers by electrochemical vapor deposition /EVD/ at elevated temperatures --- for fuel cells 21 p0039 A79-11812
- Chemical vapor deposited molybdenum films for use in photothermal conversion 22 p0294 A79-28148
- Chemical vapor deposited amorphous silicon for use in photothermal conversion 22 p0294 A79-28149
- Thin-film solar cells produced by physical vapour deposition 23 p0441 A79-36787
- Deposition of the conduction-enhancing alkali metal from a fog in closed-cycle MHD generator systems 24 p0640 A79-47573

Optical properties and structure of amorphous silicon films prepared by CVD

24 p0654 A79-50177

Thin film battery/fuel cell power generating system [CONS/1197-9] 22 p0369 N79-21556

Chemical vapor deposition of wear-resistant coatings [EM-BI-8348] 24 p0732 N79-29276

**VAPOR JETS**

Design of a freon jet pump for use in a solar cooling system [ASME PAPER 78-WA/SOL-15] 21 p0164 A79-19847

**VAPOR PHASES**

Symposium on Advances in Synthetic Fuels presented before the Division of Petroleum Chemistry, American Chemical Society [CONF-780902-16] 24 p0734 N79-29377

**VAPOR PRESSURE**

Liquid mixture excess volumes and total vapor pressures using a magnetic suspension densimeter with compositions determined by chromatographic analysis Methane plus ethane 21 p0085 A79-15324

Compositional modeling of MHD channel slag, with preliminary vapor pressure data 23 p0391 A79-33390

**VAPORIZERS**

Evaluation of selected chemical processes for production of low-cost silicon, phase 3 --- using a fluidized bed reactor [NASA-CR-162168] 24 p0769 N79-31756

**VAPORIZING**

Suppression of vaporization in copper-silver-selenide thermoelectric materials 21 p0027 A79-10224

Liquid-phase reactions of vaporizing hydrocarbon fuels 21 p0052 A79-12987

Ammonia vaporization and condensation investigations related to OTEC heat exchangers 24 p0622 A79-45819

**VAPORS**

Control of volatile organic emissions from petroleum liquid storage in external floating roof tanks [PB-290579/2] 23 p0566 N79-24537

Analysis of the emissions from storage tanks during JP-4 fuel transfer operations. Phase 1: Warm weather conditions [AD-A069339] 24 p0732 N79-29364

**VARIABLE GEOMETRY STRUCTURES**

Development of gas turbine performance seeking logic [ASME PAPER 78-GT-13] 21 p0031 A79-10257

Tilting wing overspeed control for vertical axis wind turbines [AIAA PAPER 79-0967] 23 p0456 A79-38175

Development of the Variable Geometry Vertical Axis Windmill 23 p0484 A79-40125

Fixed angle and seasonably adjustable structural support concepts for solar converters 23 p0518 A79-41063

**VARIABLE MASS SYSTEMS**

Mass-energy analyses for gas-cooled fast reactor and fusion-fission hybrid reactor systems 24 p0629 A79-46236

**VEGETATION**

Atlas of western surface-mined lands: Coal, uranium, and phosphate [PB-287846/0] 22 p0340 N79-17311

**VEGETATION GROWTH**

Hydrocarbons and energy from plants [LBL-8596] 23 p0564 N79-24507

Overview of waste heat utilization techniques --- spray irrigation, soil heating, aquaculture and biomass production [CONF-790443-2] 24 p0791 N79-32726

**VELOCITY DISTRIBUTION**

A comparison of the Weibull and Rayleigh distributions for estimating wind power potential 21 p0045 A79-12243

An analytical expression for the specific output of wind turbine generators 22 p0273 A79-25720

Velocity, temperature, and electrical conductivity profiles in hydrogen-oxygen MHD duct flows 22 p0279 A79-26184

Energy statistics for large wind turbine arrays 22 p0299 A79-29371

- An experimental determination of the parallel electron velocity distribution during strong turbulence --- in Texas Turbulent Torus 23 p0446 A79-37264
- Depletion of available wind power by a large network of wind generators 23 p0453 A79-37899
- Electric effects in window-frame FHD generators with non-uniform velocity and conductivity in the transverse plane 23 p0479 A79-39841

# WINDMILLS (WINDPOWERED MACHINES)

- Measurement of wind speed around a wind power plant in Sweden 23 p0483 A79-40113
- Performance evaluation of wind power units 23 p0483 A79-40115
- Optimal value of the rated speed of a wind generator 23 p0527 A79-41948
- The influence of environmental parameters on flat plate solar collector performance 24 p0604 A79-44557
- Interannual and month-to-month variations of wind speed --- for wind turbine sites 24 p0629 A79-46221
- Oahu wind power survey [PB-287361/0] 22 p0335 A79-16382
- An assessment of wind characteristics and wind energy systems applications to electric utilities in Wisconsin and sections of Minnesota, Iowa and Illinois 24 p0736 A79-29593
- Wind turbines for electric utilities: Development status and economics [NASA-TM-79170] 24 p0749 A79-30719
- Wind power climatology of the United States, supplement [SAND-78-1620] 24 p0793 A79-32811
- WIND VELOCITY MEASUREMENT**
- Wind power site evaluation. I - Wind energy potential. II - Data acquisition and processing 22 p0257 A79-22924
- An analytical expression for the specific output of wind turbine generators 22 p0273 A79-25720
- Run duration analysis of surface wind speeds for wind energy application 22 p0287 A79-27345
- WINDMILLS (WINDPOWERED MACHINES)**
- Design and operating experience on the U.S. Department of Energy Experimental Mod-C 100 kW Wind Turbine 21 p0028 A79-10234
- DOP/FASA Mod-0A wind turbine performance 21 p0028 A79-10235
- On-line control of a large horizontal axis wind energy conversion system and its performance in a turbulent wind environment 21 p0028 A79-10236
- Vortex sheet analysis of the Gironmill 21 p0031 A79-10278
- Calculation of wake effects in wind turbine parks 21 p0045 A79-12241
- Performance prediction methods for horizontal axis wind turbines 21 p0045 A79-12244
- Low-cost concept for energy supply from the wind 21 p0058 A79-13651
- A small horizontal axis wind turbine feeding power into the utility grid 21 p0074 A79-14703
- Wind energy conversion --- review discussing sites and machinery 21 p0091 A79-15870
- The Campbell Chinese Type Windmill 21 p0142 A79-17510
- Development of 1 kW vertical axis wind generator 21 p0142 A79-17511
- An evaluation of the strategy of low cost horizontal axis windmills 21 p0143 A79-17517
- The design and testing of a vertical-axis wind turbine using sails 21 p0153 A79-18467
- An analytical expression for the specific output of wind turbine generators 22 p0273 A79-25720
- Fluids engineering in advanced energy systems; Proceedings of the Winter Annual Meeting, San Francisco, Calif., December 10-15, 1978 22 p0278 A79-26176
- The interaction of the wind field with a horizontal axis wind turbine 22 p0278 A79-26177
- A two dimensional vortex sheet model of a Savonius Potor 22 p0278 A79-26178
- Vortex sheet analysis of the Gironmill --- vertical axis wind turbine with straight blades 22 p0278 A79-26179
- Wind power distribution, control, and conversion in vortex augmentors --- influence on turbomachinery design and development 22 p0278 A79-26180
- Some flow analyses for Tornado-type wind turbines 22 p0279 A79-26181
- Diffuser designs for improved wind energy conversion 22 p0279 A79-26182
- Induction-generator/synchronous-condenser system for wind-turbine power 22 p0286 A79-27219
- Wind energy --- Book 22 p0287 A79-27327
- The application of hydraulics in the 2,000 kW wind turbine generator 22 p0288 A79-27400
- Evaluation of MOSTAS computer code for predicting dynamic loads in two-bladed wind turbines [AIAA 79-0733] 22 p0298 A79-29007
- A hybrid wind turbine suitable for developing regions 22 p0323 A79-31455
- A vertical-axis bicycle rotor turbine. I - Potor design. II - Aerodynamic aspects --- windmill 23 p0386 A79-33237
- A practical technique for basic windmill design 23 p0387 A79-33238
- A method for calculating the induced velocity for windmills with application to the optimization of the aerodynamic design 23 p0387 A79-33239
- The IAE 30-kW wind turbine - A review of the aerodynamic design 23 p0387 A79-33240
- The Savonius rotor - Theory and optimization 23 p0387 A79-33242
- A hybrid cyclogiro-Darrieus-rotor wind turbine 23 p0387 A79-33243
- Free-wheeling hydraulic power mills --- wind or water current driven electric plants 23 p0387 A79-33244
- Mechanical and vibrational problems of a vertical axis wind turbine 23 p0389 A79-33265
- An axial-flow wind-turbine with delta-wing blades 23 p0405 A79-34044
- Windmills with increased power output due to tipvanes 23 p0405 A79-34045
- Flap-cone control of windmill speed 23 p0405 A79-34046
- Optimal location of windmills 23 p0405 A79-34048
- Data acquisition and signal processing for a vertical axis wind energy conversion system 23 p0432 A79-35078
- Windpower generation on a large scale 23 p0452 A79-37891
- The design construction and proving of a low cost 5kW wind powered turbine for isolated applications 23 p0452 A79-37893
- A low cost wind energy conversion system for heating of domestic premises 23 p0452 A79-37894
- The aerodynamic design and testing of a vertical axis windmill 23 p0452 A79-37895
- Directional arrays of windmills 23 p0453 A79-37896
- Materials for windmill blades 23 p0453 A79-37897
- The design and construction of the Aldborough aerogenerator 23 p0453 A79-37900
- Load matching effects on wind energy converter performance 23 p0455 A79-37917
- Tilting wing overspeed control for vertical axis wind turbines [AIAA PAPER 79-0967] 23 p0456 A79-38175
- Analytical and experimental evaluation of Cycloturbine aerodynamic performance --- vertical-axis windmill [AIAA PAPER 79-0968] 23 p0456 A79-38176
- Prediction of stresses and natural frequencies for high speed wind turbine blades [AIAA PAPER 79-0970] 23 p0456 A79-38177

- Further development of the high-speed converter with flapping hinge /Goslich system/ - Plans for application in developing countries --- windmill  
23 p0471 A79-38655
- Design analysis of a vertical axis wind turbine  
23 p0472 A79-38656
- Total wind energy over Central Europe and its maximum utilization through optimal degree of development of solar wind conversion plants  
23 p0472 A79-38657
- Flowfield measurements in the vicinity of the rotor of a 10 kw windmill  
[AIAA PAPER 79-0969] 23 p0475 A79-38889
- Performance matching and optimization of wind powered water pumping systems  
23 p0479 A79-39842
- Windpower programmes in Tanzania  
23 p0482 A79-40106
- The interaction of windmill wakes  
23 p0482 A79-40111
- Wake interaction in an array of windmills - Theory and preliminary results  
23 p0483 A79-40112
- Measurement of wind speed around a wind power plant in Sweden  
23 p0483 A79-40113
- Investigations on the aeroelastic stability of large wind turbines  
23 p0483 A79-40116
- The aeroelastic behaviour of large Darrieus-type wind energy converters derived from the behaviour of a 5,5 m rotor  
23 p0483 A79-40118
- Measurements of performance and structural response of the Danish 200kW Gedser windmill  
23 p0484 A79-40121
- The design, construction, testing and manufacturing of vertical axis wind turbines  
23 p0484 A79-40124
- Development of the Variable Geometry Vertical Axis Windmill  
23 p0484 A79-40125
- A new concept - The flexible blade windmill /FBW/  
23 p0485 A79-40126
- Wind tunnel corrections for Savonius rotors  
23 p0485 A79-40127
- Tipvane research at the Delft University of Technology --- auxiliary wings for turbine blades of windmills  
23 p0485 A79-40129
- Cretan windmills  
23 p0536 A79-43576
- Performance of windmills in a closely spaced array  
23 p0537 A79-43681
- Free vortices from a wing for wind turbine systems  
23 p0537 A79-43683
- Wind tunnel tests of a 1/30 scale model of a 3.5 megawatt wind turbine  
24 p0703 A79-52012
- Operation of self-excited generators for windmill application  
24 p0706 A79-52538
- Limits to wind-power  
24 p0708 A79-52951
- Design, instrumentation, and calibration of a vertical axis wind turbine rotor  
[TID-27754] 21 p0174 A79-10533
- Gironmill wind tunnel test and analysis, volume 2. Technical discussion  
[COO-2617-4/2] 21 p0204 A79-13378
- Two-dimensional analysis of vertical axis windmills  
22 p0353 A79-19446
- Wind direction change criteria for wind turbine design  
[PNL-2531] 22 p0361 A79-20506
- A low-cost water pumping windmill using a sail type Savonius rotor  
[PB-294413/0] 23 p0585 A79-26541
- Wind driven water pumps. Economics, technology, current activities  
[PB-292816/6] 23 p0585 A79-26542
- Investigation of a generator system for generating electrical power, to supply directly to the public network, using a windmill  
[NASA-TM-75497] 24 p0771 A79-31779
- Wind power, volume 2. Citations from the NTIS data base --- bibliographies  
[NTIS/PS-79/0534/2] 24 p0777 A79-31836
- Wind power, volume 1. Citations from the Engineering Index data base --- bibliographies  
[NTIS/PS-79/0535/9] 24 p0777 A79-31837
- Investigations on the aeroelastic stability of large wind turbines  
[NPL-7P-78014-0] 24 p0792 A79-32731
- WINDOWS**  
An efficient optical window for flat-plate solar energy collectors  
23 p0536 A79-43591
- WINDOWS (APERTURES)**  
Transparent heat mirrors for passive solar heating applications  
[LBI-7829] 23 p0561 A79-24476
- Description of the possibilities for energy savings during the design and construction of apertures in buildings (cross-section report)  
[BMFT-FE-T-78-15] 23 p0590 A79-27345
- Performance evaluation of solar films and screens  
[AD-A070636] 24 p0800 A79-33583
- WINDPOWER UTILIZATION**  
Advanced wind furnace systems for residential and agricultural heating and electrical supply applications  
21 p0028 A79-10237
- Torque ripple in a vertical axis wind turbine  
21 p0029 A79-10239
- Toroidal Accelerator Rotor Platforms for wind energy conversion  
21 p0029 A79-10240
- SIMWEST - A simulation model for wind energy storage systems  
21 p0029 A79-10241
- Calculation of wake effects in wind turbine parks  
21 p0045 A79-12241
- The influence of blade camber on the output of vertical-axis wind turbines  
21 p0045 A79-12242
- A comparison of the Weibull and Rayleigh distributions for estimating wind power potential  
21 p0045 A79-12243
- Selection of method for calculating the parameters of wind and solar power station storage facilities  
21 p0054 A79-13293
- Low-cost concept for energy supply from the wind  
21 p0058 A79-13651
- Design of a low-energy house in Denmark heated by a combination of solar and wind energy

# SUBJECT INDEX

# WINDPOWERED GENERATORS CONTD

Generic power performance estimates for wind turbines 21 p0068 A79-14295

Analysis of wind turbine generator rotor response to one-dimensional turbulence 21 p0077 A79-14768

Toroidal accelerator rotor platforms for wind energy conversion 21 p0077 A79-14770

Large filament wound structures for energy and transportation systems --- turbine blades for windpowered energy systems 21 p0086 A79-15507

Control of wind turbine generators connected to power systems 21 p0086 A79-15574

Operation and control of wind-electric systems 21 p0086 A79-15575

Large wind turbine generators --- NASA program status and potential costs 21 p0C92 A79-15881

Utility applications of wind power plants 21 p0C92 A79-15882

A proposed conceptual plan for integration of wind turbine generators with a hydroelectric system 21 p0C98 A79-16107

On the use of eddy-current couplings in wind-driven synchronous machines 21 p0113 A79-16742

Controlling a wind generator for increased efficiency 21 p0113 A79-16743

Efficient use of wind energy by using static slip recovery systems - A simulator study 21 p0113 A79-16744

The Netherlands experimental vertical axis wind turbine 21 p0114 A79-17120

The Campbell Chinese Type Windmill 21 p0142 A79-17510

Development of 1 kW vertical axis wind generator 21 p0142 A79-17511

Wind generation of electricity for a novel dwelling independent of servicing networks 21 p0142 A79-17513

Field testing of 5-kW commercial wind generator with an automatic load-matching device for utilizing its output 21 p0143 A79-17515

Vertical axis wind turbine status 21 p0143 A79-17516

A technique for longitudinal correlation of wind data - Theory and its application to siting of wind power plants 21 p0143 A79-17518

A minicomputer based data acquisition and analysis systems for vertical axis wind turbine testing 21 p0144 A79-17617

Some effects of flow curvature on the performance of Darrieus wind turbines [AIAA PAPER 79-0112] 21 p0156 A79-19538

Wind turbine generator wakes [AIAA PAPER 79-0113] 21 p0156 A79-19539

Energy effectiveness of arbitrary arrays of wind turbines [AIAA PAPER 79-0114] 21 p0156 A79-19540

The Madaras Rotor Power Plant - An alternate method for extracting large amounts of power from the wind [AIAA PAPER 79-0115] 21 p0157 A79-19541

Experimental investigation of the joint operation of wind and solar plants 21 p0167 A79-20358

Fluid dynamics of diffuser-augmented wind turbines 22 p0238 A79-20798

An inverse problem of vertical-axis wind turbines 22 p0239 A79-20800

Background and system description of the Mod 1 wind turbine generator 22 p0239 A79-20825

Wind turbine generator application places unique demands on tower design and materials 22 p0240 A79-20826

Fatigue impact on Mod-1 wind turbine design 22 p0240 A79-20827

Wind-turbine-generator rotor-blade concepts with low-cost potential 22 p0240 A79-20828

An operating 200 kW horizontal axis wind turbine 22 p0240 A79-20829

Microprocessor control of a wind turbine generator 22 p0244 A79-21302

Cost-effectiveness of the vortex-augmented wind turbine 22 p0266 A79-24048

Tropospheric conduits --- for pollution abatement and energy production 22 p0266 A79-24275

Stormy development of wind energy --- German technology utilization 22 p0268 A79-24323

An analytical expression for the specific output of wind turbine generators 22 p0273 A79-25720

Contribution to the development of wind energy systems using static power electronic converters 22 p0286 A79-26958

No ill winds for New Mexico utility --- windpower utilization in municipal electric power system 22 p0286 A79-27208

Wind energy --- Book 22 p0287 A79-27327

The application of hydraulics in the 2,000 kW wind turbine generator 22 p0288 A79-27400

Energy statistics for large wind turbine arrays 22 p0299 A79-29371

A Variable Speed Constant Frequency /VSCF/ wind generator for low power applications 22 p0303 A79-29799

Control strategy for a variable-speed wind energy conversion system 22 p0303 A79-29800

The economics of electric power generation from wind energy 22 p0310 A79-30998

Wind power from a vortex chamber 22 p0319 A79-31425

NRC's wind energy program 22 p0319 A79-31426

Alternate energy installations on the Jordan College Campus 22 p0323 A79-31454

Design and application of large wind turbine generators 22 p0326 A79-31916

Off-shore multi-MW size wind turbine system development is the key to cost-effective wind energy for Sweden 22 p0326 A79-31917

The IAE 30-kW wind turbine - A review of the aerodynamic design 23 p0387 A79-33240

Wind tunnel tests on a wind operated suction-pump-turbine system to generate electricity 23 p0387 A79-33241

The Savonius rotor - Theory and optimization 23 p0387 A79-33242

Mechanical and vibrational problems of a vertical axis wind turbine 23 p0389 A79-33265

Alternative energy sources; Proceedings of the Miami International Conference, Miami Beach, Fla., December 5-7, 1977. Volume 4 - Indirect solar energy 23 p0404 A79-34036

Theoretical study of a hybrid wind turbine 23 p0405 A79-34047

Wind site selection for optimum wind power systems 23 p0406 A79-34049

A review of wind-electric conversion technology 23 p0406 A79-34050

Wind energy conversion systems /WECS/ for central station and dispersed power applications 23 p0406 A79-34052

An energy analysis of a wind energy conversion system for fuel displacement 23 p0406 A79-34054

Hydrogen from the wind - A clean energy system 23 p0413 A79-34112

Data acquisition and signal processing for a vertical axis wind energy conversion system 23 p0432 A79-35078

- Solar ammonia-water absorption system for cold storage application  
21 p0143 A79-17521
- Design of a solar energy operated lithium-bromide water absorption refrigeration system for refrigeration storage  
21 p0143 A79-17523
- Some aspects of the transient response of a flat-plate solar energy collector  
21 p0153 A79-18466
- Geothermal power and water production studies at the University of California  
[ASME PAPER 78-WA/ENER-7] 21 p0159 A79-19778
- The use of heat exchangers with THERMOEXCEL's tubing in ocean thermal energy power plants  
[ASME PAPER 78-WA/HT-65] 21 p0162 A79-19825
- Using N2O4 in a solar gas-turbine plant  
21 p0167 A79-20357
- Effect of the properties of the working body on the selection of the temperature of the surface of the electrodes of the channel of an MHD generator  
21 p0167 A79-20419
- Study of solid-gas-suspensions used for direct absorption of concentrated solar radiation  
22 p0262 A79-23757
- Solar energy storage as hydrogen and bromine from hydrogen bromide  
22 p0265 A79-24045
- Solar system modeling using a modular approach with generalized programs for working fluid properties  
22 p0266 A79-24310
- Effects of test fluid, flow rate, and flow regime on solar collector thermal performance measurements  
22 p0268 A79-24317
- Use of organic fluids in solar turbines  
22 p0269 A79-24621
- Working fluids and turbines for OTEC power systems  
22 p0280 A79-26192
- Heat transfer in a solar radiation absorbing fluid layer flowing over a substrate  
22 p0281 A79-26204
- Solar energy application of natural zeolites --- solid absorber-water vapor working fluid system for sorption-refrigeration cycles  
22 p0286 A79-27213
- Thermal analysis of black liquid cylindrical parabolic collector  
22 p0295 A79-28354
- Study of refrigeration couples for solar cooling in tropical zone  
23 p0383 A79-32960
- Power generation experiments of a linear MHD generator with fully ionized seed  
23 p0354 A79-33421
- Liquid sorbent solar air conditioner  
23 p0401 A79-34014
- Ocean thermal energy conversion /OTEC/ plant working fluid study  
23 p0404 A79-34040
- Feasibility study of a regenerative solid polymer electrolyte fuel cell system using hydrogen/chlorine reactants for high efficiency energy storage  
23 p0416 A79-34130
- Organic synthesis fluids for solar energy systems  
23 p0435 A79-35485
- On the problem of heat transfer in low-temperature heat pipes  
23 p0532 A79-42938
- Ocean Thermal Energy Conversion plant with Freon 22  
24 p0619 A79-45795
- Studies on OTEC power system characteristics and enhanced heat transfer performance in HTL  
24 p0622 A79-45821
- Hybrid OTEC cycle avoids indirect heat exchangers  
24 p0625 A79-45844
- Thermodynamic basis for the choice of working fluids for solar absorption cooling systems  
24 p0641 A79-47791
- Storage assisted heat pumps using phase change materials  
24 p0697 A79-51967
- Open-cycle coal-fired liquid-metal MHD  
24 p0701 A79-51991
- Development of CDE /Concentration Difference Energy/ system and engine  
24 p0702 A79-52005
- Power cycles and working fluids for low temperature heat sources  
22 p0332 N79-16268
- Thermal performance evaluation of the Semco (liquid) solar collector  
[NASA-CR-161230] 23 p0594 N79-27656
- WYOMING**
- In situ coal gasification modeling  
[UCRL-82269] 23 p0561 N79-24479
- Geologic applications of thermal-inertia mapping from satellite --- Powder River Basin, Wyoming  
[E79-10279] 24 p0796 N79-33518
- X**
- X RAY ANALYSIS**
- Flash X-ray tests of solar cells  
23 p0498 A79-40899
- X RAY IMAGERY**
- Two-dimensional monochromatic X-ray imaging of laser-produced plasmas --- during implosions for laser fusion  
22 p0296 A79-28366
- X RAY SPECTRA**
- Measurements of compressed core density of laser-imploded targets by x-ray continuum-edge shift  
21 p0154 A79-18479
- Pellet X-ray spectra for laser fusion reactor designs  
22 p0291 A79-27878
- X RAY SPECTROSCOPY**
- Neon spectral line broadening as a diagnostic for compressed laser-fusion targets  
24 p0638 A79-47060
- XENON LAMPS**
- Proposal for efficient appreciation of solar thermal absorptive materials by high irradiance solar simulator  
21 p0130 A79-17406
- Y**
- YAG LASERS**
- Frequency doubling of a solar pumped Nd:YAG laser  
21 p0044 A79-12062
- Performance of the short-pulse oscillators for Argus and Shiva  
21 p0083 A79-15171
- Optical coatings for a space laser communications system  
22 p0292 A79-28028
- YELLOWSTONE NATIONAL PARK (ID-MT-WY)**
- Draft environmental statement of the Island Park geothermal area, Idaho, Montana, Wyoming  
23 p0551 N79-23551
- YIELD**
- Use of refinery computer model to predict fuel production  
[NASA-TM-79203] 24 p0718 N79-28349

## YOKES

- Accounting for the effect of a yoke in an MHD  
linear induction machine by stipulating boundary  
conditions of a new kind

22 p0247 A79-21627

## YTTRIUM OXIDES

- Electrochemical characteristics of ZrO<sub>2</sub>-Y<sub>2</sub>O<sub>3</sub> solid  
electrolytes for fuel cells
- Urania-yttria solid solution electrodes for  
high-temperature electrochemical applications

21 p0039 A79-11813

24 p0670 A79-51712

## Z

## ZAMBIA

- Description of hydro-electric development and  
proposal for future development on the Zambezi

22 p0340 N79-17323

## ZEOLITES

- Solar energy application of natural zeolites ---  
solid absorber-water vapor working fluid system  
for sorption-refrigeration cycles
- The potential of zeolite molecular sieves as  
hydrogen storage media
- Solar refrigeration utilizing zeolites
- Screening of zeolite catalysts for methanol  
conversion to light hydrocarbons  
[COC-4691-1]

22 p0286 A79-27213

23 p0415 A79-34123

24 p0703 A79-52014

24 p0780 N79-32386

## ZETA PINCH

- Microstability of a focused ion beam propagating  
through a z-pinch plasma
- Plasma behavior near the neutral line between  
parallel currents --- in planar zeta pinch
- Interferometry of a gas-puff z-pinch plasma

22 p0270 A79-24817

22 p0324 A79-31754

24 p0648 A79-49210

## ZINC

- Thermodynamic and kinetic considerations on  
zinc-halogen batteries
- A zinc-bromine battery for energy storage
- The zinc-chlorine battery in the EEST facility -  
1981
- Electrolysis of zinc. Statistical model of the  
process parameters for an industrial cell  
[BLL-RTS-11317]

21 p0040 A79-11822

24 p0684 A79-51832

24 p0703 A79-52013

22 p0345 N79-17984

## ZINC CHLORIDES

- Modeling of zinc-chloride batteries for electric  
vehicles

24 p0684 A79-51833

## ZINC COMPOUNDS

- 100MWh zinc-chlorine peak-shaving battery plants
- Photovoltaic effects in II-VI heterojunctions
- Zn<sub>3</sub>P<sub>2</sub> - A promising photovoltaic material
- Evaluation of selected chemical processes for  
production of low-cost silicon, phase 3 ---  
using a fluidized bed reactor  
[NASA-CR-162168]

21 p0011 A79-10096

21 p0042 A79-11967

23 p0502 A79-40927

24 p0760 N79-31756

## ZINC SULFIDES

- Zn/x/Cd/1-x/S solid solution solar cells
- Zn/x/Cd/1-x/S:Cu<sub>2</sub>S heterojunction solar cells. II  
- Junction analysis
- Solar photoconverters based on Zn/x/Cd/1-x/S solid  
solutions

23 p0433 A79-35377

24 p0616 A79-45745

24 p0662 A79-50700

## ZIRCONIUM ALLOYS

- The effect of induced disorder on the  
hydrogenation behaviour of the phase ZrCo

22 p0251 A79-21707

## ZIRCONIUM OXIDES

- Electrochemical characteristics of ZrO<sub>2</sub>-Y<sub>2</sub>O<sub>3</sub> solid  
electrolytes for fuel cells

21 p0039 A79-11813

# PERSONAL AUTHOR INDEX

ENERGY / A Continuing Bibliography (Issue 24)

JANUARY 1980

## Typical Personal Author Index Listing

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g. NASA report translation, NASA contractor report). The issue, page and accession numbers are located beneath and to the right of the title, e.g. 21 p0215 N79-14099. Under any one author's name the accession numbers are arranged in sequence with the /AA accession numbers appearing first.

## A

- ABARCAR, H. E.**  
Solar thermal systems long-term performance predictions using closed-form solutions 24 p0672 A79-51740
- ABATUT, J. L.**  
Analysis and design of a field of heliostats for a solar power plant 22 p0242 A79-21161
- ABATUT, J.-L.**  
WELM analysis and solar energy conversion systems 24 p0644 A79-48022
- ABBIN, J. P., JR.**  
Sandia Laboratories operational experience with small heat engines in solar thermal power systems 24 p0673 A79-51752
- ABBOTT, D.**  
Two-junction cascade solar cell characteristics under 1000 concentration ratio and AM 0-AM 5 spectral conditions 23 p0513 A79-41027  
Analysis of AlGaAs-GaInAs cascade solar cell under AM 0-AM 5 spectra 23 p0528 A79-42170  
Computer modeling of a two-junction, monolithic cascade solar cell 24 p0785 N79-32672
- ABDEL-KHALIK, S. I.**  
Properties optimization for phase-change energy storage in air-based solar heating systems 21 p0149 A79-18018  
Sizing phase-change energy storage units for air-based solar heating systems 23 p0439 A79-36632
- ABDEL-SALAM, O.**  
Sulphate-carbonate CO<sub>2</sub> concentrator - Preliminary experiments [ASME PAPER 78-ENAS-2] 21 p0046 A79-12551
- ABDEL-WAHED, R. M.**  
Effects on thermal storage efficiencies of modifying heat-transport properties of indigenous sandstones 24 p0630 A79-46396
- ABDELRAHMAN, M.**  
Study of solid-gas-suspensions used for direct absorption of concentrated solar radiation 22 p0262 A79-23757
- ABDEERASSOUL, R.**  
High-efficiency thin-film polycrystalline-silicon solar cells 22 p0273 A79-25744

- Thin film polycrystalline silicon solar cells 23 p0518 A79-41067
- ABDULLAEV, A. SE.**  
Magnetic instability of laser-produced plasma and spontaneous generation of magnetic fields 23 p0423 A79-34400
- ABDURAKHMANOV, A.**  
Optimal geometrical properties of cavity-type solar collectors with selective absorption properties 23 p0433 A79-35381  
Heating characteristics of concentrator/receiver systems using selective absorption surfaces 24 p0646 A79-48739  
Investigation of the absorption and emission characteristics of an ideal selective surface 24 p0648 A79-49186  
Optimal geometric parameters of cavity solar collectors with selective radiation-absorption properties 24 p0663 A79-50704
- ABELES, T. P.**  
Parameters for legislative consideration of bioconversion technologies [PB-284742/4] 21 p0194 A79-12250
- ABENS, S. G.**  
Improvement of phosphoric acid fuel cell stacks [AD-A070881] 24 p0800 N79-33582
- ABERLEY, R. C.**  
Pyrolysis gas from solid waste will provide total power demand for a major wastewater reclamation plant 23 p0417 A79-34147
- ABHAT, A.**  
Investigation of physical and chemical properties of phase change materials for space heating/cooling applications 21 p0120 A79-17319  
Performance studies of a finned heat pipe latent thermal energy storage system 21 p0121 A79-17325
- ABIDOV, T. Z.**  
Solar energy thermoreceiver with selective coating and vacuum thermoinsulation 24 p0636 A79-46761
- ABOUBLEZZE, M.**  
Degradation of polymethylmethacrylate by radiation 23 p0431 A79-35074
- ABRAHAM, K. M.**  
A lithium/dissolved sulfur battery with an organic electrolyte 22 p0305 A79-30332
- ABRAHONWITZ, S.**  
Test procedures for the determination of the gross caloric value of refuse and refuse-derived-fuels by oxygen bomb calorimetry: Summary of the 1977 fiscal year results [PB-290160/1] 22 p0364 A79-21167
- ABRAMS, L. M.**  
The H-Coal pilot plant - History, description, and present status 23 p0412 A79-34100
- ABRIKOSOV, B. KE.**  
Study of diffusion processes in low-temperature thermopiles 21 p0054 A79-13290

# CORPORATE SOURCE INDEX

ENERGY / A Continuing Bibliography (Issue 24)

JANUARY 1980

## Typical Corporate Source Index Listing

The title of the document is used to provide a brief description of the subject matter. The issue, page number and NASA or AIAA accession number are included in each entry to assist the user in locating the abstract in the abstract section of an individual supplement of *Energy*. If applicable a report number is also included as an aid in identifying the document.

## A

- ABACUS CONTROLS, INC., SOHENVILLE, N. J.**  
An inverter/controller subsystem optimized for photovoltaic applications  
23 p0516 A79-41047

## WOODARD-CLYDE CONSULTANTS, SAN FRANCISCO, CALIF.

Impact prediction manual for geothermal development

[PB-288128/2]

22 p0349 N79-18462

## WORL ASSOCIATES, ANCHORAGE, ALASKA.

Alaska OCS socioeconomic studies program. Assessment of change in the north slope, Beaufort Sea Region sociocultural systems  
[PB-291918/1]

23 p0546 N79-22972

## WORLD METEOROLOGICAL ORGANIZATION, GENEVA (SWITZERLAND).

Radiation regime of inclined surfaces

[WHO-467]

21 p0192 N79-11613

## WYLE LABS., INC., HUNTSVILLE, ALA.

Indoor test for thermal performance evaluation on the Northrup concentrating solar collector  
[NASA-CR-150804]

21 p0172 N79-10515

Thermal performance evaluation of the Calmac (liquid) solar collector

[NASA-CR-150819]

21 p0173 N79-10521

Large hot water system long range thermal performance test report, addendum

[NASA-CR-150842]

21 p0204 N79-13492

Long-term weathering effects on the thermal performance of the Lennox/Honeywell (liquid) solar collector

[NASA-CR-150818]

21 p0204 N79-13493

Libbey-Owens-Ford solar collector static load test  
[NASA-CR-150852]

21 p0205 N79-13494

LARGO hot water system thermal performance test report

[NASA-CR-150841]

21 p0205 N79-13500

Thermal performance evaluation of the Solargenics solar collector at outdoor conditions

[NASA-CR-150857]

21 p0228 N79-15401

Long term weathering effects on the thermal performance of the sunworks (liquid) solar collector

[NASA-CR-150899]

22 p0341 N79-17328

Thermal performance evaluation of NSFC hot air collectors with various flow channel depth  
[NASA-CR-150900]

22 p0348 N79-18449

Long-term weathering effects on the thermal performance of the Libbey-Owens-Ford (liquid) solar collector

[NASA-CR-161093]

22 p0348 N79-18450

Long term weathering effects on the thermal performance of the solaron (air) solar collector  
[NASA-CR-161166]

22 p0371 N79-21621

Indoor test for thermal performance evaluation of seven Elcam fin-tube solar collector configurations

[NASA-CR-161236]

23 p0594 N79-27657

Long-term weathering effects on the thermal performance of the solargenics (liquid) solar collector at outdoor conditions

[NASA-CR-150523]

24 p0737 N79-29601

Indoor test and long-term weathering effects on the thermal performance of the solar energy system (liquid) solar collector

[NASA-CR-150794]

24 p0749 N79-30715

Indoor test for thermal performance of the Sunmaster evacuated tube (liquid) solar collector

[NASA-CR-161306]

24 p0797 N79-33561

Indoor test for thermal performance of the GP TC-100 liquid solar collector eight- and ten-tube configuration

[NASA-CR-161305]

24 p0798 N79-33568

## WYOMING UNIV., LARAMIE.

Kinetic modeling of pyrolysis and hydrogasification of carbonaceous materials

21 p0179 N79-11150

## X

## XEROX ELECTRO-OPTICAL SYSTEMS, PASADENA, CALIF.

Research on energy storage for solar thermal conversion

[NASA-CR-159427]

23 p0542 N79-22631

## Z

## ZENTRALANSTALT FUER METEOROLOGIE UND GEODYNAMIK, VIENNA (AUSTRIA).

Meteorological measurement data for solar energy utilization

[ASSA-PA-5]

23 p0574 N79-25524

## ZENTRALSTELLE FUER GEO-PHOTOGRAMMETRIE UND

## FERNERKUNDUNG, MUNICH (WEST GERMANY).

Application of LANDSAT data and digital image processing

[Z79-10102]

22 p0339 N79-17291

## ZIA ASSOCIATES, INC., BOULDER, COLO.

Heat pump/rock bed storage systems

[COO-4704-2]

24 p0789 N79-32705

# CONTRACT NUMBER INDEX

ENERGY / A Continuing Bibliography (Issue 24)

JANUARY 1980

## Typical Contract Number Index Listing

Listings in this index are arranged alphanumerically by contract number. Under each contract number the accession numbers denoting documents that have been produced as a result of research done under that contract are arranged in ascending order with the IAA accession numbers appearing first. The accession number denotes the number by which the citation is identified in either the IAA or STAR section. Preceding the accession number are the issue and page number in the particular supplement in which the citation may be found.

# REPORT/ACCESSION INDEX

ENERGY / A Continuing Bibliography (Issue 24)

JANUARY 1980

## Typical Report/ Accession Number Index Listing

Listings in this index are arranged alphanumerically by report number. The issue and page number indicate the actual Supplement and page where the citation may be located. The accession number denotes the number by which the citation is identified. An asterisk (\*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

# PUBLIC COLLECTIONS OF NASA DOCUMENTS

## DOMESTIC

NASA distributes its technical documents and bibliographic tools to eleven special libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

### CALIFORNIA

University of California, Berkeley

### COLORADO

University of Colorado, Boulder

### DISTRICT OF COLUMBIA

Library of Congress

### GEORGIA

Georgia Institute of Technology, Atlanta

### ILLINOIS

The John Crerar Library, Chicago

### MASSACHUSETTS

Massachusetts Institute of Technology, Cambridge

### MISSOURI

Linda Hall Library, Kansas City

### NEW YORK

Columbia University, New York

### OKLAHOMA

University of Oklahoma, Bizzell Library

### PENNSYLVANIA

Carnegie Library of Pittsburgh

### WASHINGTON

University of Washington, Seattle

NASA publications (those indicated by an "\*" following the accession number) are also received by the following public and free libraries:

### CALIFORNIA

Los Angeles Public Library

San Diego Public Library

### COLORADO

Denver Public Library

### CONNECTICUT

Hartford Public Library

### MARYLAND

Enoch Pratt Free Library, Baltimore

### MASSACHUSETTS

Boston Public Library

### MICHIGAN

Detroit Public Library

### MINNESOTA

Minneapolis Public Library

### MISSOURI

Kansas City Public Library

St. Louis Public Library

### NEW JERSEY

Trenton Public Library

### NEW YORK

Brooklyn Public Library

Buffalo and Erie County Public Library

Rochester Public Library

New York Public Library

### OHIO

Akron Public Library

Cincinnati Public Library

Cleveland Public Library

Dayton Public Library

Toledo Public Library

### TENNESSEE

Memphis Public Library

### TEXAS

Dallas Public Library

Fort Worth Public Library

### WASHINGTON

Seattle Public Library

### WISCONSIN

Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 750 Third Avenue, New York, New York 10017.

## EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the British Library Lending Division, Boston Spa, Wetherby, Yorkshire, England. By virtue of arrangements other than with NASA, the British Library Lending Division also has available many of the non-NASA publications cited in *STAR*. European requesters may purchase facsimile copy or microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "\*" and "#", from ESA - Information Retrieval Service, European Space Agency, 8-10 rue Mario-Nikis, 75738 Paris CEDEX 15, France.
